(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)			
F 0689	The progress note dated 11/27/22 at 10:45 p.m. noted Resident #800's feet were swollen and pink. The resident had an open area under the ball of her right foot which was not new.			
Level of Harm - Immediate jeopardy to resident health or safety	On 11/27/22 Registered Nurse Staff Y documented on a statement Resident #800 returned to the facility at approximately 10:30 p.m., escorted by two police officers. The resident was wearing yellow gripper socks.			
Residents Affected - Some	The facility's investigation noted, Based on review of facility visitor log the facility had more than the usual number of visitors on 11/27/22 due to the holiday weekend. Signs were present on the doors to the unit advising staff and visitors to ensure doors were securely shut behind them. As a result of the investigation facility concludes [Resident #800] likely tailgated a visitor off the unit and through the front entrance of the facility.			
	The facility's investigation did not a and elopement.	ddress the lack of adequate supervisio	n to prevent the unsafe wandering	
	Review of the visitors' log from 11/20/22 through 11/27/22 did not show documentation of increased visitors on the secured unit.			
	On 11/20/22, and 1/22/22, one visit	tor was documented on the log for the	secured unit.	
	On 11/21/22, and 11/24/22: 12 visit	tors were documented on the log.		
	On 11/23/22, nine visitors were dod	cumented on the log.		
	On 11/27/22, four visitors were doc	cumented on the log.		
	The corrective actions noted on the	e investigation dated 12/13/22 included	:	
	The use of a Visitor tag to identify v facility when signing out on visitor's	visitors in the facility. Visitors directed to a log.	o return tag prior to leaving the	
	Staff was educated not to provide t	he door codes to visitors.		
	notified the nurse supervisor who in counter at the reception. The reception	18/23 at 9:50 a.m., the receptionist said on 11/27/22 he had to leave the facility at 2:00 p.m. and do the nurse supervisor who instructed him to leave the key fob (opens the door remotely) on the er at the reception. The receptionist said when he returned an hour later, the reception desk was ended, and the key fob was on the counter. He said Resident #998 used the key fob to let him back uilding.		
	On 1/23/23 at 1:40 p.m., Resident #998 said he was at the front desk area on 11/27/22 when he saw the receptionist outside. The key fob was unattended on the counter, and he used it to let the receptionist is building. He said there was no staff attending the front door of the facility when he used the key fob to receptionist in.

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)			
F 0689 Level of Harm - Immediate jeopardy to resident health or safety	On 1/18/23 at 2:13 p.m., in a telephone interview, former Resident #920 said on 11/27/22 when Resident #800 went missing, he used the key fob left unattended at the reception to let his visitor out. He sat outside for a few minutes and put the key fob back on the desk. He said he did not see the receptionist at any time when he had the key fob or returned it. Resident #920 said it was early evening.			
Residents Affected - Some	On 1/18/23 at 4:32 p.m., in a telephone interview the nurse supervisor said on 11/27/22 the receptionist told her he had to leave. She could not remember the exact time. She told him she would be right up. She said she could not remember telling him to leave the key fob unattended. She sat at the reception for approximately 15 to 20 minutes then left to help a resident. When she came back, the receptionist was already back. He was gone for maybe an hour.			
	On 1/19/23 at 3:40 p.m., the Administrator said as part of the corrective actions, staff was to make sure each visitor is provided a visitor sticker. He said staff was to make sure all visitors sign out before letting them out of the door. The Administrator said Resident #800 tailgated a visitor out of the facility when the front desk was attended. He said Resident #800 did not elope when the key fob was left unattended on the counter hence the implementation of the visitors' stickers, and making sure all visitors sign out to ensure no resident tailgate visitors.			
		with the Administrator from 11/28/22 th n but did not sign out when leaving the

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
F 0689 Level of Harm - Immediate jeopardy to resident health or safety	The interventions as of 10/24/22 included to ensure the call light was within reach and encourage the resident to use the call light for assistance with standing, transferring and ambulation; Needs a safe environment with even floors free from spills and/or clutter, a working and reachable call light, bed in low position.		
Residents Affected - Some	Upon the initial Therapy evaluation on 10/6/22, Resident #850 complained of pain and was not able to bear weight on his right lower extremity. Resident #850 continued to complain of pain with therapy sessions from 10/6/22 through 10/23/22.		
	On 10/24/22, an X-ray of the right I femur of indeterminate age.	nip showed Resident #850 had a right s	subcapital (neck) fracture of the
	Resident #850 was transferred to t	he hospital and underwent a surgical re	epair of the fracture.
	Review of the facility's incident reports revealed on 11/14/22 at 4:20 a.m., Nurse walked by room and noted the resident [Resident #850] on the floor on the right back at the foot of residents[sic] bed in room [Room #]. The room had adequate lighting but there was liquid on the floor and the resident's brief was on the floor near resident. Resident was able to move extremities, but later began to c/o [complain of] increased pain to right hip. Resident states desire to go to hospital. Dr. notified Resident unable to give description.		
	The incident report documented Re	esident #850 was alert and oriented to	person, place, and time.
	Predisposing factors to the fall was	documented as Wet floor.	
	Predisposing Physiological Factors	s were documented as, Incontinent and	Recent change in condition.
	Predisposing Situation Factors wer	re documented as, Ambulating without	assistance.
	On 1/20/23 at 1:10 p.m., Resident #850 was observed in his room. The resident was hard of hearing. All questions had to be written on a note pad. Resident #850 read the questions out loud and answered. Resident #850 verified he fell on ce since his admission. He said he was trying to get up to go to the bathroom when he fell . The resident said the call light was too far, he could not reach it to call for assist On 1/20/23 at approximately 2:00 p.m., the Director of Nursing (DON) said the interdisciplinary team determined the root cause of Resident #850's fall was he did not use his call light. The DON said other to the progress notes and the communication form he had no other documentation pertaining to an investigation of the resident's fall. The DON verified he had no documentation to show the resident's call was within reach at the time of the fall.		
	Resident #850 was admitted to the hospital on 11/14/22 and underwent a second surgery to his right hip.

F 0697 Level of Harm - Minimal harm or potential for actual harm Residents Affected - Some	On 1/23/23 at 2:00 p.m., the DON said the facility policy is to complete a pain assessment quarterly or with new onset of pain or changes in condition. Upon review of Resident #850's clinical record, he verified on 10/22/22 Resident #850 was experiencing some pain, and he completed a pain assessment. He said he would normally document the location of the pain on the assessment form. The DON could not recall whe the resident was having pain, and why he completed the pain assessment. On 1/23/23 at 3:00 p.m., the Administrator conducted a joint interview with the Director of Physical Therap and several other therapists, including Staff U. Staff U verified on 10/24/22, he completed therapy with Resident #850. He said he was doing isometric exercises (affected joint does not move) at the time because the resident could not tolerate putting weight

	On 11/27/22 (unknown time after 3:30 p.m.) Resident #800 who was ambulatory, walked out of the secured unit and the facility without staff knowledge. The resident was found by local law enforcement on 11/27/22 a 10:16 p.m., approximately 2.3 miles from the facility. Resident #800 traveled alone in the afternoon and evening along a busy six lanes highway and crossing busy intersections.		
	Resident #800 was missing and wandering alone for approximately six and a half hours.		
	Resident #800 had a likelihood for serious harm, injury, or death, due to risk for serious injury from a fall, being hit by a car from crossing busy streets with a speed limit of 35 miles per hour, getting lost or becoming the victim of a serious crime.		
	On 11/28/22 the facility developed a performance improvement plan with action steps to prevent further unsafe wandering and elopement of residents identified at risk for elopement with exit seeking behavior.

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)				
F 0867 Level of Harm - Immediate jeopardy to resident health or safety Residents Affected - Few	On 1/18/23 at 4:32 p.m., in a telephone interview the nurse supervisor said on 11/27/22 the receptionist told her he had to leave. She could not remember the exact time. She told him she would be right up. She said she could not remember telling him to leave the key fob unattended. She sat at the reception for approximately 15 to 20 minutes then left to help a resident. When she came back, the receptionist was already back. He was gone for maybe an hour. On 1/19/23 at 2:00 p.m., the Assistant Director of Nursing said she was responsible to ensure all staff were educated on the corrective actions after Resident #800's elopement. She provided 20 in-service education sign-in sheets from 11/28/22 through 1/16/23. Two of the 20 sign-in sheets dated 12/8/22 did not document a topic for the in-service. One of the in-service education sheets only noted the participants were educated on Abuse, Neglect, and exploitation. Six of the sign-in sheets noted the topic was elopement policy/drills/abuse				
	and neglect/Door codes not to be given to visitors. The in-services did not address the new process implemented for visitors to be provided with visitor name tag and ensure visitors sign-in and out. The Assistant Director of Nursing (ADON) said the facility utilizes agency nurses and Certified Nursing Assistants (CNAs). She said she educated the agency staff on the new process during the general				
	orientation but did not document. On 1/19/23 at 3:40 p.m., during a review of the QAPI program, the Administrator said as part of the corrective actions, staff was to make sure each visitor is provided a visitor sticker. He said staff was to sure all visitors sign out before letting them out of the door. The Administrator said Resident #800 tally visitor out of the facility when the front desk was attended. He said Resident #800 did not elope when fob was left unattended on the counter hence the implementation of the visitors' stickers, and making visitors sign out to ensure no resident tailgate visitors.				
	Review of the facility's visitor's log with the Administrator from 11/28/22 through 1/19/23 revealed approximately 364 visitors signed in but did not sign out when leaving the facility.				
	The Administrator verified staff did actions.	Administrator verified staff did not ensure each visitor signed out of the facility as per their corrective ns.			
	On 1/19/23 at 3:00 p.m., review of the visitors' log from 11/20/22 through 11/27/22 did not show documentation of increased visitors on the secured unit.				
	On 11/20/22, and 1/22/22, one visitor was documented on the log for the secured unit.				
	On 11/21/22, and 11/24/22: 12 visitors were documented on the log.				
	On 11/23/22, nine visitors were documented on the log.				
	On 11/27/22, four visitors were documented on the log.
