jeopardy to resident health or safety		HAVE BEEN EDITED TO PROTECT C		
Residents Affected - Few		hospital record review, and facility poli centered comprehensive care plan was		
	The facility care planned Resident #1 as a choking risk due to behaviors of reaching and grabbing food not on his/her diet, The resident required a pureed diet. In addition, one to one (1:1) supervision, when out of bed. The facility failed to implement the nursing care plan interventions to prevent Resident #1 from getting food not on his/her diet, nor the 1:1 supervision when out of bed. On [DATE], Resident #1 obtained a pean butter sandwich from the snack tray on the medication cart. Resident #1 grabbed and consumed half of the half of peanut butter sandwich before staff intervention and choked. Staff performed the Heimlich maneuve (abdominal thrusts to remove object causing to choke) and Resident #1 coded with staff initiating Cardiopulmonary Resuscitation (CPR) (chest compressions often with artificial ventilation). Resident #1 was transferred to an acute care facility where he/she was intubated, placed on a ventilator (machine that provides mechanical ventilation {air/breaths}), and a (Nasogastric tube) feeding tube was placed.			
	The facility's failure to implement the care plan has caused or was likely to cause serious injury, harm, impairment, or death to a resident. Immediate Jeopardy was identified on [DATE] and determined to exist on [DATE]. The facility was notified of the Immediate Jeopardy on [DATE].			
	An acceptable Credible Allegation of Compliance (AoC), related to the Immediate Jeopardy was received or [DATE] alleging the Immediate Jeopardy was removed on [DATE]. The State Survey Agency validated the AoC and determined the Immediate Jeopardy was removed on [DATE]. The Scope and Severity was lowered to a D while the facility develops and implements the Plan of Correction (PoC); and, the facility's Quality Assurance (QA) monitors the effectiveness of the systemic changes.			
	The findings include:			
	Review of facility policy titled, Comprehensive Care Plan, revealed the Comprehensive Care Plan was developed to promote communication of the resident's needs, goal, and interventions to promote succe goal attainment. Each residents care plan was designed to incorporate identified problem areas, and id the professional services that were responsible for each element of care.			
	Record review revealed the facility readmitted Resident #1, on [DATE] with diagnoses which included Dementia, Encephalopathy, Unspecified Psychosis, Anoxic Brain Damage, Altered Mental Status (AMS Aphasia, and Dysphagia. Review of the Quarterly Minimum Data Set (MDS) assessment, dated [DATE] revealed the facility assessed Resident #1's cognition as severely impaired with a Brief Interview of Mer Status (BIMS) score of three (3), which indicated the resident was not interviewable. Further review reverthe resident required supervision with meal setup.

F 0656 Level of Harm - Immediate jeopardy to resident health or safety	Review of Resident #1's Comprehensive Care Plan, dated [DATE], revealed the resident was at risk for Nutritional Decline. The Care Plan stated the resident exhibited alterations in mood/behavior of attempting to bite, grab, and scratch staff and other residents. The interventions directed staff to provide 1:1 supervision until further notice, when out of bed (dated [DATE]), and to supervise meals as indicated for reaching in and getting food not on his/her diet.			
Residents Affected - Few	However, interview with Licensed Practical Nurse (LPN) #1, on [DATE] at 9:46 AM and 11:45 AM; and on [DATE] at 2:25 PM, revealed Resident #1 was supposed to be on 1:1 supervision and she tried to call a Certified Nurse Aide (CNA) into work to provide the 1:1 supervision, but was unsuccessful. LPN #1 stated she did not have enough staff to assign a 1:1, so she tried to keep the resident by the medication cart while she administered medications and handed out snacks. She stated she had the tray of snacks on top of the medication cart. She revealed while she was pouring water to administer a resident's medications, Resident #1 grabbed a half peanut butter sandwich off the snack tray and ate half of it before she could get it away from the resident. She stated the resident choked and she provided the Heimlich maneuver unsuccessfully and Resident #1 coded requiring CPR. She stated Emergency Medical System was called and Resident #1 was transferred to hospital.			
	Further interview with LPN #1 revealed she was aware Resident #1 was care planned for 1:1 supervision and was on the list of residents who grab food in the nurses book at the nursing station. LPN #1 stated it was the nurse who determined staff assignment of the 1:1, but when doing 1:1 staff still had other duties. She stated she did not think the resident could reach the top of the med cart to grab the sandwich off the snack tray.			
	Review of hospital records dated [DATE], revealed Resident #1 was admitted to hospital via the emergency room (ER) after choking on a peanut butter sandwich. Resident #1 was intubated at 10:07 PM on [DATE]. Interview with Administrator, on [DATE] at 3:45 PM revealed the resident was still in the hospital and remained intubated with a tracheotomy, on a ventilator, and a nasogastric tube for feeding.			
	Interviews with CNA #1, on [DATE] at 7:41 AM; and, CNA #2 on [DATE] at 9:27 AM, and [DATE] at revealed they were attending to other duties and not really paying any attention to Resident #1 sitting hallway. The CNA's stated they were aware that Resident #1 was care planned to be on 1:1 when or and someone was to be with him/her at all times and within touching distance, but there was not end to provide the required 1:1 supervision. The CNA's revealed there was not enough staff to sit with the resident 1:1, so no one does 1:1, we just watch resident while doing care on the hall and sometimes nurse watched the resident. The CNA's stated Resident #1 would grab anything in reach.			
	Interview with Director of Nursing (related to dietary needs and super	DON), on [DATE] at 12:00 PM, reveale vision.	d care plans were to be followed	
	provided depending on why the res 1:1 supervision due to grabbing an line of sight to ensure the resident	ATE] at 4:12 PM, and [DATE] at 4:42 P sident was placed on 1:1. She stated R d scratching other residents; so the stawas not within reaching distance of anould grab at everything and was care pl	esident #1 was care planned for ff only had to keep the resident in other resident. She further revealed

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)			
F 0689 Level of Harm - Immediate jeopardy to resident health or safety	Interview with Staff Development Coordinator (SDC), on [DATE] at 3:36 PM, revealed Resident #1 must be constantly observed when up. She stated the resident was care planned for 1:1 supervision and needed to be constantly observed. She stated staff needed to be pretty close as that was the reason for 1:1 supervision.			
Residents Affected - Few	Interview with Administrator, on [DATE] at 3:20 PM, [DATE] at 9:45 AM and [DATE] at 4:42 PM, revealed when asked what 1:1 entailed for a resident she stated it depended on the reason the resident was on 1:1. She stated Resident #1 was care planned for 1:1 supervision when out of bed due to grabbing and scratching other residents, so the staff only had to keep the resident in line of sight to ensure the resident was not within reaching distance of another resident. She stated she was not aware the resident would constantly grab items and people and was care planned for grabbing food not on his/her diet. Further interview with Administrator, on [DATE] at 3:45 PM, revealed Resident #1 was still in the hospital and remained intubated with a tracheotomy, on a ventilator, and a nasogastric tube for feeding.			
	The Administrator further revealed the facility had identified the snacks were being left on the medication cart while the nurse was passing medications which enabled residents to have access to food that was not on their prescribed diets. She stated staff had been educated to ensure snacks were kept at nursing station and each snack passed out from there by a staff member so snacks were not left unsupervised with residents having access to them.			
	However, observation on [DATE] at 10:02 AM, revealed a dietary staff delivered the snacks to the nurse on the 200 hall. The nurse went down the hall and placed the snack tray on the med cart. Further observation revealed the nurse obtained a snack from the tray then delivered the snack to resident in their room, leaving snack tray on the cart unsupervised. There was a half peanut butter sandwich and peanut butter crackers still on the snack tray.			
	The facility implemented the follow	ing to remove the Immediate Jeopardy:	:	
	1. Resident #1 was transferred fror	n the facility on [DATE] and has not ret	urned to the facility.	
	[DATE]. The Administrator complet	list of all current residents on mechani ted a review of the care plans of residential for reaching for food not on their m	nts with mechanical soft and	
	3. The Administrator, Social Service Director, and/or licensed nurse completed a review of psychosocial/behavior care plans for any resident currently identified as requiring 1:1 supervision, on [DATE]. There were no additional residents at this time requiring 1:1 supervision. This was completed on [DATE].			
	4. The Regional Director of Operations provided education to the Administrator on [DATE] regarding: One-to-one supervision regarding one staff member dedicated to the supervision of one resident with no other assigned duties during the time.

F 0725 Level of Harm - Immediate	Provide enough nursing staff every charge on each shift.	day to meet the needs of every reside	nt; and have a licensed nurse in
jeopardy to resident health or safety	**NOTE- TERMS IN BRACKETS H	HAVE BEEN EDITED TO PROTECT C	ONFIDENTIALITY** 32162
Residents Affected - Few	Based on interview, record review, review of the Staff Assignment Sheet, facility education documentation, hospital records, and facility policy review, it was determined the facility failed to ensure sufficient staff had the appropriate competencies and skill sets to provide nursing and related services to ensure one (1) of four (4) sampled residents (Resident#1) safety as determined by resident assessments and care plans.		
	The facility assessed and care planned Resident #1 with a history of grabbing food off trays, was at risk for choking, and required 1:1 supervision when out of bed. However, on [DATE], the facility did not assign staff to provide 1:1 supervision, due to insufficient staffing. Interview with Licensed Practical Nurse (LPN) #1 revealed Resident #1 was kept within line of sight during medication pass due to not having enough staff to implement the required 1:1 supervision. In addition, LPN #1 stated she placed a tray of snacks on top of the medication cart with Resident #1 near the cart. Resident #1 grabbed a half of a peanut butter sandwich off the tray and consumed half the sandwich before staff intervention. Resident #1 became choked with staff providing Heimlich (abdominal thrusts to remove object causing to choke) and Cardiopulmonary Resuscitation (CPR) (chest compressions with artificial respirations). Resident #1 was transferred to an acute care facility where he/she was intubated, placed on a ventilator and a (Nasogastric tube) feeding tube was placed.		
	to cause serious injury, harm, impa	cient staff to provide nursing and relate nirment, or death to a resident, Immedia [DATE]. The facility was notified of the	ate Jeopardy was identified on
	An acceptable Credible Allegation of Compliance (AoC), related to the Immediate Jeopardy was received on [DATE] alleging the Immediate Jeopardy was removed on [DATE]. The State Survey Agency validated the AoC and determined the Immediate Jeopardy was removed on [DATE]. The Scope and Severity was lowered to a D while the facility develops and implements the Plan of Correction (PoC); and, the facility's Quality Assurance (QA) monitors the effectiveness of the systemic changes.		
	The findings include:		
	Interview with the Administrator, or	n [DATE] at 3:45 PM, revealed the facili	ity did not have a staffing policy.
	Review of facility policy titled, Facility Assessment Tool Record dated [DATE], revealed care provision was monitored on a daily basis to ensure that each resident received the care and services that were dictated by the plan of care. Staffing patterns were reviewed on a daily basis. The facility worked to cover the needs of residents on a daily basis, including accounting for call-ins, etc. This was an approach to staffing to ensure sufficient staff to meet the needs of the residents at any given time based on resident population and their needs for care and support. F 0725 Level of Harm - Immediate jeopardy to resident health or safety Residents Affected - Few	Review of facility education documentation provided to staff, on [DATE], [DATE], and [DATE], titled, Following Care Plans and Resident to Resident Procedure, revealed when a resident was on 1:1 staffing it was because they have been evaluated as needing continuous supervision. This meant that these residents must always be in the line of sight of the staff member assigned to them. Staff cannot leave the resident sitting unattended while attending to another resident or any other task unless someone else was watching them. Record review revealed the facility admitted Resident #1 on [DATE] and readmitted on [DATE] with diagnoses, which included Dementia, Encephalopathy, Unspecified Psychosis, Anoxic Brain Damage, Altered Mental Status (AMS), Aphasia, and Dysphagia. Review of a Speech Therapy Evaluation dated [DATE]; a Comprehensive Care Plan for at risk for nutritional decline, dated [DATE]; and a Comprehensive Care Plan for alterations in mood/behavior revealed, Resident #1 was was assessed and care planned to require 1:1 Supervision due to grabbing food not on his/her diet, and having behaviors of scratching, hitting, and grabbing others. Review of Daily Staffing Sheet, dated [DATE], revealed there was one nurse and two Certified Nurse Aides (CNA's) assigned to Resident #1's unit on the 2:30 PM-10:30 PM shift. Further review revealed there was no one assigned for 1:1 supervision of Resident #1. Review of Nurses Note, dated [DATE] at 8:02 PM by LPN #1, revealed LPN #1 witnessed Resident #1 take peanut butter sandwich from snack tray on medication cart in hallway and take a large bite of sandwich before LPN #1 could get sandwich from resident. The Resident choked and licensed staff performed the Heimlich maneuver multiple times, and the resident coded with staff providing CPR with success. EMS arrived and took over care of Resident #1 and transported resident to hospital.		
Review of Emergency Department to Hospital Admission Records dated [DATE] at 8:30 with hospital Advanced Registered Nurse Practitioner (ARNP), on [DATE] at 10:05 AM, r had to be intubated and placed on respirator and admitted to hospital with acute hypoxic and aspiration. An ear/nose/throat (ENT) specialist was consulted for a tracheotomy and [DATE]. Resident may have to be discharged to go to long-term acute care at the hospital Interview with Administrator, on [DATE] at 3:45 PM, revealed the resident was still in the remained intubated with a tracheotomy, on a ventilator, and a nasogastric tube for feedir Interview with LPN #1, on [DATE] at 9:46 AM, 11:45 AM and on [DATE] at 2:25 PM, reverequired 1:1 supervision and she did not have enough staff to provide 1:1. She stated she another CNA into work to provide the 1:1, with no success. She stated one CNA was supsmoke break outside, one CNA was providing resident care in room, and she was adminand had placed the snack tray on the medication cart, so she could administer snacks at revealed Resident #1 smoked but was out of cigarettes so she had no choice but to try to by the medication cart while she administered the medications and passed snacks. She pouring a cup of water to administer another resident's medications, Resident #1 grabbe butter sandwich off of med cart and had eaten half of it before she could stop the resider facility had sitters for Resident #1, but the sitters were done away with, and the routine s provide 1:1 supervision along with the duties they already had.		at 10:05 AM, revealed Resident #1 acute hypoxic respiratory failure acheotomy and it was planned for the at the hospital to get off the vent. was still in the hospital and	
		She stated she tried to call e CNA was supervising resident she was administering medications lister snacks at the same time. She bice but to try to keep Resident #1 d snacks. She stated as she was dent #1 grabbed a half of a peanut stop the resident. LPN #1 stated the

potential for actual harm	**NOTE- TERMS IN BRACKETS H	HAVE BEEN EDITED TO PROTECT CO	ONFIDENTIALITY** 33035	
Residents Affected - Few	Based on observation, interview, record review, dietary meal slip review, and facility policy review, it was determined the facility failed to honor one (1) of twenty (20) sampled residents meal preferences (Resident #52).			
	The facility identified Resident #52 disliked green beans, green peas, spinach, and greens; however, served the resident lima beans, on 09/01/2020. The findings include:			
	Review of the facility policy titled, Resident Food Preferences, not dated, revealed nutritional assessment would include an evaluation of individual food preferences. The Dietician would discuss resident food preferences with the resident when such preferences conflict with a prescribed diet. The residents clinic record (orders, care plan, or other appropriate locations) would document the resident's likes and dislike and special dietary instructions or limitations such as altered food consistency and caloric restrictions. Record review revealed the facility readmitted Resident #52 on 01/28/2020 with diagnoses which includ Hypothyroidism, Parkinson's, Diabetes, Hypertension, Hyperlipidemia, Non-Rheumatic Mitral Valve Insufficiency, and Morbid Obesity due to Excess Calories. Review of the Quarterly MDS dated [DATE], revealed the facility assessed the resident as cognitively intact with a BIMS score of fifteen (15) which indicates the resident was interviewable.			
	Observation of Lunch meal, on 09/01/2020 at 12:06 PM, revealed Resident #52 was served his/her meal in his/her room which consisted of Hamburgers, Tater Tots, and Lima Beans. However, review of Resident #52's dietary meal slip revealed in capitalized letters **NO GREENS, **NO SPINACH, **NO GREEN BEANS, **NO GREEN PEAS.			
	Interview with Resident #52 on 09/01/2020 at 12:45 PM revealed the resident stated they know I do not like any green vegetables, I'm not eating any green beans or green vegetables.			
	Observation revealed Certified Nurse Aide (CNA) #2 set up the resident's tray. Further observation revealed Resident #52 did not eat the Lima Beans and was not offered an alternative choice.			
	Interview CNA #2, on 09/03/2020 at 1:35 PM, revealed Dietary was supposed to ensure trays were accurate and honored likes and dislikes. She stated staff serving the resident's meal was supposed to also check prior to delivering tray to resident. She stated I looked at the slip to ensure the resident received the appropriate tray and diet but I did not identify lima beans as green beans or offer the resident an alternative choice.			
and the staff member serving the resident's t		Manager, on 09/03/2020 at 2:20 PM, revealed he would expect dietary esident's tray to identify if the resident would eat lima beans. Interview eal slip listed **NO GREEN BEANS** staff should offer the resident an
