(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)			
F 0550 Level of Harm - Minimal harm or potential for actual harm	Honor the resident's right to a dignified existence, self-determination, communication, and to exercise his or her rights. **NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY** 36876			
Residents Affected - Few	Based on observation, record review and interview, the facility failed to provide a dignified environment during activities and meals on the [NAME] Unit and failed to maintain the dignity of 1 Resident (#124) by placing his/her catheter in a privacy bag out of a total sample of 38 Residents.			
	Findings include: 1.) On 12/8/22 at 11:59 A.M., the surveyor observed the following in the [NAME] Unit (a secured unit which houses Residents with dementia):			
	*The lights were turned off and a movie was playing in the dining room where approximately 15 Residents were sitting. The activity schedule indicated that the scheduled activity was board games. Multiple residents were yelling at one another, You're a bitch, Get the [expletive] out, You're a [derogatory term for a gay person].			
	*A CNA and an Activity Assistant were seated in the common room with the Residents, not engaging with the Residents or intervening as Residents were screaming and cursing.			
	*The Activity Assistant saw the surveyor and promptly stood up, put the lights on and began cleaning up items off of the tables in front of the residents. Residents continued to scream, curse and yell at one another and no staff intervened.			
	1	ved Residents continue to curse at one engage with, redirect or communicate w		
	During an interview with the Activities Director on 12/12/22 at 8:27 A.M., she said that if staff have to change an activity that was scheduled on the calendar, they alert her. She said that she was not alerted of any changes to Activities scheduled on the [NAME] Unit last week. The Activities Director said that she would expect that if staff observed Residents cursing at one another, or in any sort of distress, that they would address the behavior, intervene or alert nursing to become involved.			
	During observations of the breakfast meal on 12/9/22, the surveyor observed the following on the [NAME] Unit:

F 0580 Level of Harm - Immediate jeopardy to resident health or safety Residents Affected - Few	Review of CNA #2's hand written witness statement signed and dated [DATE] indicated that on [DATE] Resident #231 was assigned to CNA #4. CNA #2 was asked by CNA #4 to help change Resident #231. When CNA #2 arrived in the room, Resident #231 had vomited, the bed was soiled and Resident #231 was gasping for air (originally written as help but was crossed out and written to air.) The statement indicated: I stated the Resident is dying, lets do this quick before [he]/she dies on me. I did my best to finish and set up everything and I left. It was around 6:30 A.M. I check on the resident before the new shift started and I found him/her dead.			
	During an interview with CNA #2 on [DATE] at 8:29 A.M., he said that on [DATE] CNA #4 asked for help changing Resident #231. CNA #2 said that when he got into the room he was surprised because Resident #231 had vomited a brownish color, he/she was gasping for air and looked like he/she was dying. CNA #2 said he told CNA #4 that Resident #231 was dying and we needed to clean him/her quick. CNA #2 said the positioned Resident #231 on his/her back with the head of the bed propped up. CNA #2 said that when the left Resident #231's room, his/her mouth was open and he/she was still gasping for air. CNA #2 said he thought that because Resident #231 was assigned to CNA #4 that she would alert the nurse on duty (Unit Manager #2).			
		went to check on Resident #231. CNA r #2. However, the written statement from		
	Review of CNA #4's statement dated [DATE] indicated that Resident #231 was assigned to CNA #2 on [DATE]. The statement indicated she assisted CNA #2 in changing Resident #231 and did not include any details of Resident #231's status.			
	Review of Resident #231's Activities of Daily Living (ADL) sheets indicated that CNA #4 had provided care for Resident #231 on [DATE].			
	During an interview with CNA #4 on [DATE] at 1:27 P.M., she said that she was doing her rounds and Resident #231 vomiting. CNA #4 said she made CNA #2 aware that Resident #231 needed assistance she provided him clean linen for Resident #231. CNA #4 said she did not provide care for Resident #2 [DATE]. However, CNA #4's interview does not support her written and signed witness statement from [DATE] and clinical documentation in Resident #231's medical record.			
	[DATE], indicated that she observe Resident #231's room around 6:15 overheard CNA #2 and CNA #4 dis that on [DATE] at 7:15 A.M., CNA a statement indicated that CNA #2 m care to Resident #231 there was vo dying at that time. Unit Manager #2	indicated Unit Manager #2's typed and ad Resident #231 in bed after 6:00 A.M. A.M. and heard CNA #2 and CNA #4 p. A.M. and heard CNA #2 and CNA #4 p. 	said he told CNA #4 that Resident	#231 was dying and we needed to clea	in him/her quick. CNA #2 said they	
Residents Affected - Some	positioned Resident #231 on his/her back with the head of the bed propped up. CNA #2 said that when they left Resident #231's room, his/her mouth was open and he/she was still gasping for air. CNA #2 said he thought that because Resident #231 was assigned to CNA #4, she would alert the nurse on duty (Unit Manager #2).			
	CNA #2 said around 7:15 A.M., he dead and went to tell Unit Manager	went to check on Resident #231. CNA #2.	#2 said that Resident #231 was	
	Review of CNA #4's statement dated [DATE] indicated that Resident #231 was assigned to CNA #2 on [DATE]. The statement indicated she assisted CNA #2 in changing Resident #231 and did not include any details of Resident #231's status.			
	Review of Resident #231's Activities of Daily Living (ADL) sheets indicated that CNA #4 had provided care for Resident #231 on [DATE].			
	During an interview with CNA #4 on [DATE] at 1:27 P.M., she said that she was doing her rounds and saw Resident #231 vomiting. CNA #4 said she made CNA #2 aware that Resident #231 needed assistance and she provided him clean linen for Resident #231. CNA #4 said she did not provide care for Resident #231 on [DATE]. However, CNA #4's interview does not support her written and signed witness statement from [DATE] and clinical documentation in Resident #231's medical record.			
	Review of Unit Manager #2's typed and signed witness statement dated [DATE], indicated that she observed Resident #231 in bed after 6:00 A.M. Unit Manager #2 walked by Resident #231's room around 6:15 A.M. and heard CNA #2 and CNA #4 providing Resident #231's care and overheard CNA #2 and CNA #4 discussing who Resident #231 was assigned to.			
	The statement indicated that on [DATE] at 7:15 A.M., CNA #2 informed Unit Manager #2 that Re was dead. The statement indicated that CNA #2 made Unit Manager #2 aware at 7:15 A.M., that was providing care to Resident #231 there was vomit around his/her mouth and chest and he re he/she was dying at that time. Unit Manager #2's statement indicated that she was shocked and assess Resident #231 who was found to have no vital signs and he/she had some coffee ground around his/her mouth and he/she was laying flat in the bed.			
	During an interview with Unit Manager #2 on [DATE] at 8:53 A.M., she said that on [DATE] Resident #23 was assigned to CNA #4. She said that sometime after 6:00 A.M., she had observed Resident #231 and he/she was ok. Unit Manager #2 said sometime after that she observed CNA #4 in Resident #231's room and CNA #2 in the hallway discussing who was assigned to the resident, and then they both went into Resident #231's room. Unit Manager #2 said sometime after that, CNA #2 came to her and said that Resident #231 was dead. Unit Manager #2 said she then ran to the room and found the resident without vitals and had vomit on his/her chest.

(X4) ID PREFIX TAG	(X4) ID PREFIX TAG SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		on)	
F 0600 Level of Harm - Actual harm Residents Affected - Some	Unit Manager #2 said that she told CNA #2 and CNA #4 that if they are taking care of a Resident they need to leave right away and are required to report a change in condition to the nurse. Unit Manager #2 said I was beside myself, I was crying. Unit Manager #2 said that had she been made aware, she would have been able call 911 and maybe [Resident #231] would not have died here in the building. I did not have a chance to do anything to prevent it. Unit Manager #2 said that Resident #231's death was not expected.			
	2. A. Resident #4 was admitted to the facility in February 2019 with diagnoses including chronic obstructive pulmonary disease, heart failure and diabetes. Review of Resident #4's most recent Minimum Data Set assessment dated [DATE] indicated he/she is cognitively intact and required assistance with bathing, dressing and toileting.			
	During an interview with Resident #4 on [DATE] at 1:43 P.M., he/she said that CNA #1 refused to provide care after he/she had soiled himself/herself and that he/she sat in his/her own feces for hours. Resident #4 said he/she was so upset and ended up calling the police.			
	Review of the facility's investigation dated [DATE] included witness statements from nurses indicating that between 8:00 P.M. and 8:30 P.M., CNA #1 was asked by nursing staff to assist Resident #4 with care after he/she had soiled himself/herself in bed. Both witness statements indicated that CNA #1 initially said that sh would provide care after she finished her documentation, then when approached again said she was on break. One of the witness statements indicated that CNA #1 told the nurse she had already changed Resident #4 (when she had not) and to leave her alone. During an interview with Nurse #1 on [DATE] at 9:10 A.M, she said that on [DATE] Resident #4 had put on his/her call light and needed to be changed. Nurse #1 said she went to find CNA #1 who was in the TV roor and she asked CNA #1 to change Resident #4. Nurse #1 said CNA #1 replied that she was doing her documentation and she would change Resident #4 after. Nurse #1 said that she went a few minutes later to ask CNA #1 again and CNA #1 then said she was on break.			
	but she was not sure how many tim	on that night had also asked CNA #1 to nes. Nurse #1 said that they had to call nt #4. Nurse #1 said CNA #1 worked the	the nurse supervisor to intervene.

F 0604	Ensure that each resident is free from	om the use of physical restraints, unles	s needed for medical treatment.	
Level of Harm - Actual harm	**NOTE- TERMS IN BRACKETS H	IAVE BEEN EDITED TO PROTECT CO	ONFIDENTIALITY** 15016	
Residents Affected - Few	Based on record review, interview, and observation, the facility failed to ensure 1 Resident (#30) of 38 residents was free of an unnecessary physical restraint. On 12/8/22 and 12/9/22, staff placed Resident #30 (a resident who is severely cognitively impaired) in a wheelchair between a wall and table, preventing him/her from rising. Using the reasonable person concept, a person would experience distress having their movement restricted without the ability to understand why.			
	Findings include:			
		acility in June 2021 and had diagnoses on's disease, muscle weakness (gener		
	Review of Resident #30's quarterly Minimum Data Set (MDS) assessment, dated 11/16/22, indicated: a Brief Interview for Mental Status Score of 1 (indicating severe cognitive impairment), required extensive two-person assist with mobility on the unit, and had no functional impairment in his/her upper or lower body range of motion.			
	Review of Resident #30's medical physical restraint, and no signed co	record indicated there was no assessmonsent for a physical restraint.	ent or physician's order for a	
	Review of Resident #30's plan of care, dated 7/27/22, indicated he/she had the potential to exhibit physical behaviors and verbal behaviors: Kicking and punching, cursing, screaming and threatening staff related to cognitive loss/dementia, and he/she was at risk for falls related to cognitive loss, and lack of safety awareness. Resident #30's plan of care did not identify restraints as an issue or intervention.			
	During observations on 12/8/22 at 10:59 A.M., 11:20 A.M. to 11:45 A.M., and at 12:15 P.M., Resident #30 was sitting in his/her wheelchair at the [NAME] Unit dining room. Staff had placed the back of his/her wheelchair against a side wall and pushed a dining table above his/her knees. Due to the placement of the wheelchair between the wall and table, Resident #30 was unable to rise from the wheelchair. Resident #30 made multiple attempts to rise from the wheelchair but was unable to stand due to the placement of the wheelchair. During the observation, Resident #30 yelled, Nobody can get out!, and I want to get out of here At 11:20 A.M., Resident #30 told staff he/she needed to use the toilet. Staff pulled the table away from him/her and then pulled the wheelchair away from the wall. Resident #30 cursed and tried multiple times to kick staff as they wheeled him/her to the bathroom.			
	During observations on 12/9/22 at 9:41 A.M., 10:10 A.M., and 10:17 A.M., Resident #30 was in his/her wheelchair at the [NAME] Unit dining room. Staff had placed the back of his/her wheelchair against a side wall and pushed a dining table above his/her knees. Due to the placement of the wheelchair between the wall and table, Resident #30 was unable to rise from the wheelchair.			
	During an interview with Unit Manager #3 on 12/9/22 at 10:20 A.M., she said Resident #30 had the functional ability to rise from his/her wheelchair.

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
F 0609 Level of Harm - Minimal harm or potential for actual harm	During an interview with Director of Nursing (DON) #2 on 12/12/22 at 12:31 P.M., she said that staff from the facility telephoned her on 10/22/22 because CNA#1 refused to leave the building pending an investigation after he/she was alleged to have refused to feed Resident #88. DON #2 acknowledged that CNA #1 was terminated from the facility effective 10/27/22 due to an allegation of neglect by a Resident.		
Residents Affected - Few	The facility failed to include in its report to the state agency that CNA #1 refused to feed Resident #88, refused to leave the facility pending an investigation, and intimidated Resident #88's roommate who was a witness to the alleged incident, and was also terminated effective 10/27/22 for the neglect of a resident.		
	2.) Resident #82 was admitted to the facility in June 2019 with diagnoses including muscle weakness unsteadiness on feet and difficulty walking. Review of the most recent Minimum Data Set, dated date [DATE] indicated he/she had a brief interview for mental status (BIMS) score of 15 out of a possible 1 indicating intact cognition. Review of Resident #82's fall investigation, dated 9/19/22 indicated the following: Nurse #12 observed that Resident #82 was soaking wet. Nurse #12 told Certified Nurse Aide (CNA) change him/her, CNA #4 refused, and later staff found that Resident #82 had fallen to the floor and w soaking wet. The fall investigation indicated that Resident #82 said he/she was trying to go to the bathroom and w walking lost control and slid to the floor. Resident #82 said he/she did not hit his/her head on the floor Review of Nurse #12's progress note, dated 9/19/22, indicated she observed Resident #82 and he/sh appeared confused. Nurse #12 indicated she last saw Resident #82 around 6:25 A.M., to give him/he medication. Nurse #12 indicated that Resident #82 was dangling his/her feet over the side of the bed #12 indicated she helped Resident #82 get comfortable, and then asked CNA #4 (who was assigned Resident #82) to change his/her clothing. Nurse #12 indicated that CNA #4 told Nurse #10 that the 7: to 3:00 P.M. staff will do it. Nurse #12 indicated that at 7:15 A.M., another CNA from the 7:00 A.M. to		
	proceeded to complete an incident During an interview with Unit Mana work on 9/19/22, 7:00 A.M. to 3:00 Resident #82 after CNA #4 was as incident report, UM #2 said she told CNAs should take care of Resident During an interview with DON #1, #4 #1 said the expectation after UM #2	ger (UM) #2 on 12/14/22 at 9:24 A.M., P.M. shift, Nurse #12 informed her of t ked to change him/her and refused to.d reported Director of Nurses (DON) #2 ts on their assignments. Administrator #1, and Administrator #2, 2 reported the incident would have been abuse and neglect investigation, and	she said when she reported for he incident that occurred with UM #2 said she completed a fall about the incident. UM #2 said on 12/14/22 at 11:05 A.M., DON n to immediately suspend CNA #4,

F 0726 Level of Harm - Minimal harm or	Ensure that nurses and nurse aides have the appropriate competencies to care for every resident in a way that maximizes each resident's well being.			
potential for actual harm	44095			
Residents Affected - Few	services that assured Resident safe	nd record review the facility failed to ensety. Specifically, on 1/25/23, Nurse #5 medications for 1 Resident (#78) out of	documented medications as	
	Findings include:			
	Review of the facility policy titled, General Dose Preparation and Medication Administration, dated as revised 1/1/22, indicated that after medication administration, facility staff should document medication administration information (when the medication is given) on appropriate form (medication administration record).			
		form titled, Clinical Competency Valida rse #5 received education on medication inistration record.		
	During the medication pass on 1/25/23 at 8:55 A.M., Nurse #5 selected Resident #78 to administer morning medications to. Nurse #5 opened Resident #5's medication administration record (MAR) and the record indicated that she had already documented as administered (green on the electronic medical record) Resident #78's morning medications. Nurse #5 begun to pour the medications that had been documented as administered.			
	Review of the MAR, dated 1/25/23	, indicated the following medications ha	nd been administered:	
	-amlodipine, medication used for h	ypertension		
	-aspirin, medication used for cereb	rovascular accident (stroke)		
	-vitamin d, medication used for sup	pplement		
	-hydrochlorothiazide, medication fo	or hypertension		
	-hydroxuria, medication used for ce	erebral infraction according to his/her pl	hysician's order	
	-metformin, medication used to trea	at diabetes.		
	During an interview on 1/25/23 at 9:00 A.M., Nurse #5 said that she documents medications as administered on the medication administration record before she administers medications. Nurse #5 said she does not want to get in trouble for being late with her medications so she makes herself notes on a paper census sheet. Nurse #5 said she checks the census sheet so she knows which Residents still require medications. Nurse #5 said this is her normal practice for medication administration.

F 0740 Level of Harm - Minimal harm or potential for actual harm Residents Affected - Few	Ensure each resident must receive and the facility must provide necessary behavioral health care and services. **NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY** 43807 Based on interviews and record review, the facility failed to provide behavioral services for one Resident (#55) out of a sample of 38 Residents. Findings include: Review of the facility policy titled Behaviors: Management of Symptoms revised on 10/24/22 indicated the following: *Patients exhibiting behavioral symptoms will be individually evaluated to determine the behavior. The interdisciplinary team identifies underlying medical, physical, functional, psychosocial, emotional, psychiatric, or environmental causes that contribute to changes in behavior. *Based on the comprehensive assessment, staff must ensure that a patient who displays or is diagnosed with behavioral health disorder or psychosocial adjustment difficulty receives appropriate treatment and services to correct the assessed problem or to attain the highest practicable mental and psychosocial well-being. Resident #55 was admitted to the facility in February 2022 with diagnoses including major depressive disorder and sleep disorder. Review of the most recent minimum data set (MDS) dated [DATE] indicated that Resident #55 had a brief interview for mental status (BIMS) score of 12 out of a possible 15 indicating moderate impairment. Review of Resident #55's mood care plan initiated 2/28/22 indicated he/she was at risk of distressed/fluctuating mood symptoms, depression caused by the diagnosis of major depressive disorder, he/she had recently moved into the facility with the inability to return home.			
	Review of Resident #55's psychiatric admission/evaluation note dated in 10/5/22 (approximately 7 months after admission) stated that the Resident engaged in the initial evaluation, he/she reported a history of depression, reporting an increase due to being in the facility and his/her unlikelihood of returning home, Resident #55 also reported minimal family support. The therapist stated that Resident #55 will benefit from continued behavioral therapy since he/she responds well to emotional support. During an interview with Resident #55 on 12/9/22 at 8:52 A.M., he/she said he/she has gone through a lot of changes in his/her life,he/she is not able to see his/her family, he/she has always wanted to see a therapist since his/her admission to work through his/her life changes, but none was available until recently.

F 0740 Level of Harm - Minimal harm or potential for actual harm Residents Affected - Few	During an interview with the Social Worker, (SW#1), on 12/12/22 at 12:14 P.M., she said Resident #55 was admitted in February 2022 and he/she was first provided psychiatric services in 10/5/22, seven months after admission. SW #1 said with his/her history of depression and going through so many life changes, he/she should have been seen by psychiatry at admission and continued to receive therapy through his/her stay. She said every Resident admitted to the facility should be referred to psychiatric services especially if they have any psychiatric diagnoses.

F 0761	3.) On [DATE] and [DATE] (during	2 shifts) the medication room on the O	ak Grove Unit was left unlocked.	
Level of Harm - Minimal harm or potential for actual harm Residents Affected - Some	During an observation on [DATE] at 5:49 A.M. on the Oak Grove Unit, the surveyor opened the medication storage room. The door was unlocked, and staff were not present in the area. The medication storage room held over the counter and prescription medications, including scheduled drugs (in a locked refrigerator). At approximately 5:51 A.M., a Certified Nurse Aide (CNA) approached the surveyor and said hello. The CNA then left the area and within a minute Nurse #10 arrived and saw the surveyor standing at the open door to the medication room.			
	During an interview with Nurse #10 on [DATE] at 5:53 A.M., she said the CNA told her the surveyor was in the medication room. The surveyor told Nurse #10 the medication room had been unlocked and I was able to enter the room without keys or supervision. Nurse #10 said the door lock was broken and she was unable to lock it, and it had been unlocked yesterday during her shift as well. Nurse #10 said she had not informed anyone of the broken lock. Nurse #10 said she did not know if anyone else was aware the lock was broken. Nurse #10 said she did not know how to address the broken lock because she was from an Agency. The surveyor told Nurse #10 to supervise the room to prevent unauthorized entry and to inform Unit Manager #1 of the broken lock. Unit Manager #1 arrived to the medication room at approximately 4:57 A.M.			
	During an interview with Unit Manager #1 on [DATE] at 5:57 A.M., she said facility policy required the medication room be locked and only the medication nurse should have access. Unit Manager #1 said she was unaware the door lock was broken and that the room could not be locked. Nurse #10 then inserted the medication room key into the lock and demonstrated that she was unable to lock the closed door. Unit Manager #1 then demonstrated that the inside doorknob button needed to be pushed inwards to lock the door and that the lock was functioning properly.			
		ration on the Maplewood Unit on [DATI Irawer and were expired and undated,		
	Review of the facility policy for Storage and Expiration Dating of Medications, Biologicals, dated [DATE], indicated, If a multi-dose vial of an injectable medication has been opened or accessed the vial should be dated and discarded within 28 days unless the manufacturer specified a different (shorter or longer) date for that opened vial.
