Residents Affected - Few		review, the facility failed to ensure the real at the time of hospitalization for 1 of 3		
	Findings include:			
	R1's diagnoses included altered mental status, dementia with behavioral disturbance, transient alteration of awareness and convulsions obtained from the significant Minimum Data Set (MDS) dated [DATE]. In addition, the MDS indicated R1 had severely impaired cognition and it was important for family or significant other to be involved in R1's care discussions per the staff assessment.			
	During a review of the interdisciplinary notes, it was revealed on 12/19/21, at 4:08 p.m. the nurse had been called by family member (FM)-A to R1's room to evaluate R1. The nurse indicated R1 was non-verbal and could not respond to nurse or FM-A. The nurse then indicated he had decided to do a rapid Covid test which R1 tested positive for Covid-19. As the nurse was in the process of evaluating the R1, FM-A called 911 and the ambulance with paramedics arrived within 10 minutes and R1 was transferred to the hospital.			
	R1's medical record was reviewed, and lacked documentation that bed hold information was offered to R1, sent to the hospital for R1, given to FM-A at the time of transfer or attempts to contact FM-A to offer the bed hold policy.			
	1	55 a.m. registered nurse (RN)-A stated to the hospital however he had not do ber (FM)-A at the time.		
	On 12/27/21, at 10:44 a.m. during the exit conference with the interim administrator, and the infection cont nurse (ICN), the interim administrator stated he expected the the staff sending the resident to the hospital issue the bed hold at the time of the transfer to the hospital and for emergency transfers the staff should have made a call to the hospital to discuss the bed hold policy.			
	The facility Transfer or Discharge Notice reviewed 12/22/21, directed the staff to provide a resident and/or the resident's representative (sponsor) with a thirty day written notice of the impending transfer or discharge. The policy lacked documentation on bed hold notices for residents when being transferred to a hospital/acute care setting.

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
F 0880 Level of Harm - Immediate jeopardy to resident health or safety Residents Affected - Many	On [DATE], at 1:30 p.m. during the first attempted removal visit R4 was observed wearing a mask and was being wheeled down the hallway by the activities assistant (AA), they went past the nursing station and as they went past the employee break room, R4 asked AA to stop outside the employee breakroom. R4 then removed her mask and was observed talking to the staff who sat in the room. AA then redirected R4 to leave the mask on. R4 re-applied the mask and AA then wheeled R4 through the dining room to the entrance of the smoking area where R4 joined other residents in the smoking area.		
,	-At 1:35 p.m. to 1:37 p.m. R4 was observed being assisted from the smoking area by staff and back into the dining room. At 1:38 p.m. R4 was observed return into the building from the smoking area and as she went past the door threshold AA cued her to wear her mask. At 1:40 p.m. R4 asked AA for a cup of coffee to drink in the dining room.		
	-At 1:41 p.m. AA approached R4 with a cup with coffee and was overheard telling R4 she was supposed to always have the mask on when out of the room except when eating, drinking or smoking. At 1:43 p.m. to 1:49 p.m. R4 was observed drinking coffee in the dining room. At 1:50 p.m. R4 was observed go over to the door again asked to go outside to smoke. As she approached the table with smoking supplies R4 was assisted by the staff to the smoking area however she did not have a mask on as she went past two residents who sat and stood by the door. At 1:57 p.m. R4 returned to the dining room and sat at the table by the wall as she continued to drink the coffee and not wearing a mask. At this same time AA and kitchen staff was observed setting up the dining room for the resident Christmas party and residents were independently coming into the dining room and being seated. At 2:06 p.m. to 2:29 p.m. R4 remained at the table seated no drinking or eating and was not wearing a mask. At 2:11 p.m. the DON came into the dining room and stood by R4 but never redirected R4 to go back to her room or wear a mask.		
	-At 2:13 p.m. the DON re-directed R4 to wear the mask and R4 asked how about the test results. R4 then asked the DON to stop standing by her and still did not put the mask on. The DON continued to stand by R4 and at this time the dining room had 15 residents seated waiting to be served food. At 2:29 p.m. as AA brought R4 food to eat in the dining room, the surveyor intervened, and the DON stated R4 was not supposed to be in the dining room because she was supposed to be quarantined in her room due to the exposure. The DON stated R4 was supposed to have been brought back to the room after smoking but AA was assisting with the Christmas party.		
	-At 2:31 p.m. DON wheeled R4 out	of the dining room down the hallway to	her room.
	During interview on [DATE], at 2:39 p.m. the activities assistant stated she did not know that R4 was not supposed to participate in communal activities. The activities assistant stated she thought if R4 had her mas on and maintained 6 feet this was appropriate. AA stated she had told R4 if she was not eating and drinking, she was supposed to have her mask on and she did not know why other staff did not re-direct R4 to put the mask on as she was busy assisting with the activity.		
	During interview on [DATE], at 3:04 p.m. the DON stated the facility was going to revised the training for the staff to include -unvaccinated residents can only go to smoke then back into their rooms and she of the infection control nurse would communicate to the staff the vaccination status of a residents when this situations came up and this would be implemented immediately in IJ the removal staff training.

			NO. 0936-0391
STATEMENT OF DEFICIENCIES AND PLAN OF CORRECTION	(X1) PROVIDER/SUPPLIER/CLIA IDENTIFICATION NUMBER: 245544	(X2) MULTIPLE CONSTRUCTION A. Building B. Wing	(X3) DATE SURVEY COMPLETED 12/27/2021
NAME OF PROVIDER OR SUPPLIER Victory Health & Rehabilitation Center		STREET ADDRESS, CITY, STATE, ZIP CODE 512 49th Avenue North Minneapolis, MN 55430	
For information on the nursing home's	plan to correct this deficiency, please con	tact the nursing home or the state survey	agency.
(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
F 0880 Level of Harm - Immediate jeopardy to resident health or safety Residents Affected - Many	(Each deficiency must be preceded by full regulatory or LSC identifying information) An undated facility policy titled, COVID-19 Outbreak and Routine Testing Procedure was provided. The policy noted residents that refuse testing during an outbreak should be placed on transmission-based precautions (TBP) until the criteria for discontinuing the TBP have been met. Further, for these residents additional monitoring is necessary to ensure the resident maintains appropriate distancing, wears a face covering and practices hand hygiene. Additionally, the policy noted unvaccinated residents should generally be restricted to their rooms and not participate in group activities. The CDC guidance for unvaccinated residents reads; unvaccinated residents that have close contact with someone with the SARS CoV-2 infection should be placed in quarantine for 14 days after their exposure, even if viral testing is negative. The IJ was removed on [DATE], at 10:23 a.m. when it could be verified by observation, interview, and record review that the facility took steps to educate staff on the process for vaccinated and unvaccinated residents on quarantine and additional procedures were implemented to direct quarantined residents to remain in their room or to other isolated areas of the facility.
