Any deficiency statement ending with an asterisk (\*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

F 0584  Level of Harm - Minimal harm or potential for actual harm  Residents Affected - Some	During interview on 02/22/22 at 4:00 P.M. and 04/01/22 at 1:46 P.M., the administrator said staff should report cold water to her and to maintenance staff. Maintenance staff check and document the water temperature in random rooms throughout the facility every Monday through Friday. If the water temperature is not within regulation guidelines, maintenance should report it to her and should start working on the remedy immediately. The maintenance supervisor notified her the 300 hall did not have hot water (on 2/22/22). She informed him to call a plumber and get it fixed. She expected the hot water temperatures to meet regulation.

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES  (Each deficiency must be preceded by full regulatory or LSC identifying information)			
F 0600 Level of Harm - Actual harm	-Verbal abuse is defined as using profanity or speaking in a demeaning, non-therapeutic, undignified, threatening or derogatory manner in a resident's presence. Examples include harassing a resident, mocking, insulting, ridiculing, yelling at a resident with the intent to intimidate, and threatening residents.			
Residents Affected - Few	Review of Resident #29's face s	heet showed the following:		
	-He/She was admitted to the facility	y on [DATE];		
	<ul> <li>-His/Her diagnoses included paranoid schizophrenia (mental condition characterized by presence of one or more delusions or auditory hallucinations in a person who seemed to have otherwise relatively normal thinking ability and emotions).</li> </ul>			
	Review of the resident's admission Minimum Data Set (MDS), federally mandated assessment to be completed by the facility, dated 1/13/22, showed his/her cognition was intact and that he/she had no hallucinations, delusions, and/or behaviors that affected others in the previous seven-day look back period.			
	Review of the resident's care plan,	dated 1/19/22, showed the following:		
	-He/She had impaired thought prod	cess related to paranoid schizophrenia;		
	-He/She would participate in decisi	on making for daily tasks of life;		
	-He/She would accept judgement for	rom staff as appropriate;		
	-Staff would approach him/her in a	warm, positive, and calm manner;		
	-Staff would calmly talk with him/he	er and always explain what they would	be doing before they did it.	
	Review of the facility's Registered Nurse Investigation (RNI), dated 2/4/22, showed on 2/4/22, the resident reported to the charge nurse that CNA V said he/she was not getting him/her (Resident #29) a fucking thing after the resident asked for a snack. The resident reported that CNA V twisted his/her (Resident #29's) words around, and said I didn't ask if you're fucking yourself. Resident #56 witnessed the event and reported that CNA V said, fuck you, no when Resident #29 asked for a snack.			
	Review of the resident's written sta CNA V told the resident, I'm not ge	tement, dated 2/4/22, showed he/she k tting you a fucking thing.	cept asking CNA V for a snack.	
	During an interview on 3/8/22 at 2:47 P.M., Resident #56 said he/she witnessed CNA V say fuck you, no when Resident #29 asked for a snack. CNA V treated him/her and other residents horrible. CNA V cursed and called him/her and other residents names like, bitch, whore, and sluts. CNA V used profanity including the F word. CNA V made him/her feel like a little child.			
	During an interview on 3/15/22 at 1	1:07 A.M., Resident #29 said the follow	ving:	
	-He/She didn't like that CNA V was	nasty and made the ugly part of him/h	er come out;

F 0742		and services to a resident who displays	S .
Level of Harm - Actual harm	disorder or psychosocial adjustmer disorder.	nt difficulty, or who has a history of trau	ma and/or post-traumatic stress
Residents Affected - Few	**NOTE- TERMS IN BRACKETS H	HAVE BEEN EDITED TO PROTECT CO	ONFIDENTIALITY** 32899
	Refer to Event ID YST412.		
	Based on observation, interview and record review, the facility failed to ensure four residents (Resident #23, #24, #3, and #18), in a review of 38 sampled residents with mental disorders who lived on secured behavioral units received individualized treatment and services to meet their needs. The residents displayed verbal and physical behaviors directed toward other residents on multiple occasions. Facility staff identified Resident #23 had anger issues and bullied other residents, including Resident #24, and failed to adequately develop and implement meaningful interventions, including non-pharmacological interventions, alternate strategies, or to ensure the residents received timely and appropriate treatment or services to address the residents' psychosocial well-being before verbal and physically aggressive behaviors occurred. Resident #24 expressed he/she had enough of Resident #23's bullying behavior and decided to stand up for himself/herself (which resulted in additional physical and verbal altercations between the residents). Residents #3 and #18 were involved in two verbal and physical altercations while Resident #3 was on one-on-one direct monitoring. Staff were pulled from all departments, including dietary and housekeeping to sit with residents who experienced behaviors. These staff were not familiar with the residents' history or behavior in order to deescalate behaviors. The facility census was 176.		
	Review of the facility's [NAME] of Focus Program: An Accountability and Responsibility System. A Comprehensive Care Plan for the Mentally III, Second Edition 2019, showed the following:		
	-The vision of the program is focus he/she can achieve in the least res	ed on the individual resident and what a trictive environment;	accountability and responsibility
	-The direction of the program is focused on helping the individual resident cope with their illness on a day to day basis. The program and its integrity is uniquely designed to assist the resident and their responsible party in achieving individualized goals with an objective measuring tool that is realistic and easy to comprehend;		
	-The program includes physical, m specifically address the resident's I	ental, medical, spiritual, social, and acti nolistic being;	ivities that are individualized to
	-The program focuses on the individual resident achieving their maximum level of functioning by utilizing an individual plan of care designed for the resident to be successful in a therapeutic milieu which offers safety and security;		
	-The program allows the resident and staff to be innovative in developing creative individual plans of care that focus on goals and positive outcomes;		
	-The basic philosophy of the [NAME] of Focus is to empower the resident to maintain or make positive life changes while working towards their interdisciplinary individualized plan of care and encourage the resident to work on their GAP (Goals Action Plan) goals;

F 0742	-He/She significantly disrupted care	e/living environment.		
Level of Harm - Actual harm Residents Affected - Few	Review of the resident's behavioral progress note, dated [DATE] at 8:34 P.M., showed the resident remained two-on-one (two staff to one resident) monitoring for protective oversight. He/She continued to show increased agitation and displayed difficult-to-redirect behaviors and a threatening manner. Charge nurse conferred with facility administration as well as physician and responsible party. Orders received to send the resident to the hospital for psychiatric evaluation. Facility believed the resident required acute physician and medication evaluation			
	Review of the resident's medical record showed no documentation a care plan was developed at this time to address the resident's behaviors.			
	Review of the resident's behavioral progress note, dated [DATE] at 11:05 A.M., showed staff met with the resident concerning behavior earlier while he/she was in the Hangout (a common area in the facility for residents to socialize and participate in activities). The resident reported that a peer called him/her a bitch, and he/she became upset and swung the door open hard. The door hit a peer, but it was not his/her intention to hit the peer. He/She was just upset and angrily swung it open. The resident was educated on appropriate behaviors and Hangout expectations. The resident verbalized understanding. The resident may return to the Hangout on [DATE].			
	yelling in the hall and was destroying administrator's office to discuss postattack peers when he/she had the physician ordered as needed (PRN remain calm, he/she requested to find the physician ordered as needed (PRN remain calm, he/she requested to find the physician ordered as needed (PRN remain calm, he/she requested to find the physician ordered as needed (PRN remain calm, he/she requested to find the physician ordered as needed (PRN remain calm, he/she requested to find the physician ordered as needed (PRN remain calm, he/she requested to find the physician ordered as needed (PRN remain calm, he/she requested to find the physician ordered as needed (PRN remain calm, he/she requested to find the physician ordered as needed (PRN remain calm, he/she requested to find the physician ordered as needed (PRN remain calm, he/she requested to find the physician ordered as needed (PRN remain calm, he/she requested to find the physician ordered as needed (PRN remain calm, he/she requested to find the physician ordered as needed (PRN remain calm, he/she requested to find the physician ordered as needed (PRN remain calm, he/she requested to find the physician ordered as needed (PRN remain calm, he/she requested to find the physician ordered to find the p	vioral progress note, dated [DATE] at 12:21 P.M., showed the resident was troying peers' art hanging on the doors. He/She was taken to the s positive coping skills and goals. He/She was aggressive and threatening to the chance due to his/her feeling that some peers were favored. The PRN) Ativan (antianxiety medication) injection. Once the resident was able to do to FaceTime (video call via an electronic device) his/her family member once it cope. F 0761  Level of Harm - Minimal harm or potential for actual harm  Residents Affected - Few	Summary Statement of DeFiciency please contact the nursing home or the state survey agency.  SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)  Ensure drugs and biologicals used in the facility are labeled in accordance with currently accepted professional principles; and all drugs and biologicals must be stored in locked compartments, separately locked, compartments for controlled drugs.  32530  Refer to Event ID YST412.  Based on interview and record review, the facility failed to ensure Schedule II narcotic pain medication wa not left unsecured and unattended. Staff failed to secure one resident's (Resident #40) card (40 tablets) or oxycodone (narcotic pain medication) in a locked compartment and left the medication unattended. The resident's medication was identified as missing from the facility while left unsecured and unattended. The facility census was 176.  Review of an email correspondence from the administrator, dated 4/7/22, showed the facility did not have policy addressing the storage of narcotic medication.  1. Review of Resident #40's admission Minimum Data Set (MDS), a federally mandated assessment instrument to be completed by the facility, dated 10/13/21, showed the following:  -Presence of pain rated at five of ten;  -Received scheduled and as needed (PRN) pain medication.  Review of the resident's care plan, dated 1/13/22, showed the resident had chronic pain and received oxycodone to alleviate his/her pain.  Review of the resident's Physician Order Sheet (POS), dated February 2022, showed the following:  -Diagnoses included chronic pain and ankylosing spondylitis (arthritis causing lower back pain);  -Oxycodone HCL tablet 10 milligrams (mg) every six hours as PRN for pain.  Review of the pharmacy requisition document, dated 2/18/22, showed a card containing 40 tablets of oxycodone 10 mg and bearing the name of the resident was delivered to the facility and signed for by Licensed Practical Nurse (LPN) A on 2/19/22 at 12:15		e with currently accepted eked compartments, separately  le II narcotic pain medication was resident #40) card (40 tablets) of emedication unattended. (X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES  (Each deficiency must be preceded by full regulatory or LSC identifying information)		
F 0761	-Once they separated the medication	ons, LPN B carried the medications to	his/her assigned unit;
Level of Harm - Minimal harm or potential for actual harm	-A couple of hours later, he/she was notified the resident's oxycodone was missing.		
Residents Affected - Few	During interview on 3/9/22 at 12:54 P.M., LPN B said the following:		
	-He/She and LPN A both observed and accepted the resident's card of oxycodone 10 mg, and then LPN A separated the medications to their perspective halls;		
	-He/She carried the medications for his/her halls in a red medication tote to the Meadowbrook nursing station area, and sat the tote on the sink counter. The tote was not locked behind a door;		
	-He/She left the tote there to go and clean a resident's wheelchair. When he/she returned, the tote was sitting on the floor in the charting room where the door was open;		
	-He/She questioned Certified Nurse Assistant (CNA) C as to why he/she moved the tote, and CNA C said he/she moved it because he/she needed to clean the sink;		
	-He/She had been educated that medications should be kept behind a locked door in the medication room or in a locked medication cart and depending on the drug, some behind two locks;		
	-He/She should not have left the medications in an unsecured location.		
	Review of CNA C's written statement, dated 2/19/22, showed he/she was cleaning and bleaching the Meadowbrook unit and nurses station area. A red box/tub was on the sink area he/she needed to clean and was in his/her way so he/she moved it into the nurse's station room.		
	During interview on 4/1/22 at 1:08 P.M., CNA Z said the following:		
	-He/She worked the night of the incident with CNA C. LPN B was the charge nurse;		
	-He/She saw CNA C cleaning around the area where the red tote had been, and then he/she observed CNA C carry the tote to the office;		
	-He/She saw the tote again, sitting on the floor in the nurse's office behind the door. The door to the room was open.		
	During interviews on 3/15/22 at 5:10 P.M. and 4/6/22 at 1:02 P.M., the administrator said the following:		
	-The charge nurses were responsible for checking in medications once they were received from the pharmacy, and should immediately place the medications under lock and key;		
	-She expected schedule II narcotic medications to be locked behind two locks;		
	-She would not expect staff to leave medications unattended.
