F 0600 Level of Harm - Actual harm Residents Affected - Few	SUMMARY STATEMENT OF DEFICIENCIES  (Each deficiency must be preceded by full regulatory or LSC identifying information)  Protect each resident from all types of abuse such as physical, mental, sexual abuse, physical punishment and neglect by anybody.  44770  Based on interview and record review, the facility failed to:  - Provide ordered dressing changes for 2 (#s 5 and 212) of 3 sampled residents. For #5, the resident miss a wound care appointment, which was not rescheduled, and the wound was not treated as ordered. For resident #212, a wound went untreated, and worsened, requiring antibiotics, and the resident had pain fror the wound.  - Nursing staff neglected to send 1 (#12) resident to the emergency department when the resident request to be sent, and the resident was later diagnosed with lower lobe pneumonia and antibiotics to treat the infection.  - Failed to protect 1 (#4) of 1 sampled residents from two incidents of verbal abuse by staff. The failure, an action taken by the facility, did not ensure resident protection after the first incident of verbal abuse for resident #4, and it occurred again. Findings include:  1. A record review of a facility reported incident for a neglect allegation, dated 9/19/21, showed, On 9/17/2 it was reported by the wound nurse that the dressing to resident, [#5], was dated 9/9/21. Resident's dressi is scheduled to be changed on Tuesdays and Fridays. Per the schedule the dressing should have been changed on 9/10 and 9/14. The allegation of neglect was substantiated by the facility.  During an interview on 2/16/22 at 9:56 a.m., staff member A stated she investigated the incident and found that resident #5 missed her appointment for wound care because she was not ready to go when the bus we ready to take her. The driver had another resident to take to an appointment and did not have time to wait the nurses to get the resident ready for her appointment. Resident #5 would have had her dressing change or if the nurse does the dressing change or if the nurse does the dressing c		sidents. For #5, the resident missed has not treated as ordered. For cs, and the resident had pain from a rtment when the resident requested his and antibiotics to treat the coal abuse by staff. The failure, and it incident of verbal abuse for ated 9/19/21, showed, On 9/17/21, so dated 9/9/21. Resident's dressing he dressing should have been by the facility.  In vestigated the incident and found as not ready to go when the bus was cent and did not have time to wait for all have had her dressing changed led. The TAR did not prompt the the process so that on wound care using change or if the nurse does appointment, the facility staff did not		

Any deficiency statement ending with an asterisk (\*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

	2. During an interview on 2/14/22 at 3:56 p.m., with resident #12 and NF3, resident #12 stated, I needed to go to the hospital (1/16/22) because I couldn't breathe and the nurse (staff member II), told me 'We don't do that here.' NF3 stated she did not get a phone call about it, and that they diagnosed him (resident #12) with left lower lobe pneumonia. NF3 did not find out about it until the next day. Resident #12 stated, The doctor saw me here the next day during his regular rounds. I was given a nebulizer and a steroid. NF3 stated, in November, around the 11th (2021) she saw protective dressings on his feet that had been on since he had been in the hospital. NF3 stated the CNA gave him a shower with the dressings on, and then the water from the wet dressings soaked his socks and shoes. NF3 went to talk to the nurse to see if she could take the dressings off and was told by the nurse, I don't care what you do.			
	During an interview on 2/15/22 at 2:41 p.m., staff member A stated, We follow the resident rights on change in condition, if he (resident #12) wanted to go to the hospital, he should have been sent.			
	During an interview on 2/16/22 at 8:36 a.m., staff member CC stated if a resident tells her they need to go to the hospital, she would check the residents' vitals, call the MD, and provide any interventions needed for the resident. Staff member CC stated, But if the resident is requesting to go to the emergency room then I would send them.			
	A review of resident #12's medical record showed an x-ray, dated 1/17/22, with clear lungs, and the lab testing was negative for influenza and Covid 19. On 1/24/22, a new x-ray showed the resident had left low lobe pneumonia, and a Z pack (azithromycin) was ordered, along with prednisone 40 mg for 5 days, and Neb three times a day, to be started 1/24/22. Review of resident #12's MAR showed the medications were not started until 1/25/22.			
		::38 p.m., resident #12 stated, I did tell n't go to the hospital. But nobody did a		
	3. A record review of a facility reported incident for a neglect allegation, dated 9/20/21, showed, On 9 it was reported by night shift that the dressing to resident, [#212], was dated 9/8/21. An allegation of has been submitted . the allegation of neglect is substantiated. According to the facility reported incide facility found that a nurse falsified a record, documenting she had changed the dressing on 9/14/21, had not, and on 9/17/21 another nurse documented on the TAR that she changed the dressing becare thought that the wound care nurse had done the dressing change, but the dressing was not changed 9/17/21 either.

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
F 0610  Level of Harm - Minimal harm or potential for actual harm  Residents Affected - Few	Respond appropriately to all alleged violations.  44770  Based on interview and record review the facility failed to fully investigate alleged neglect for 2 (#s 5 and 212) out of 2 sampled residents. Findings include:  1. A record review of a facility reported incident, dated 9/19/21, showed resident #5 had not had her wound dressing changed for seven days. Resident #5's dressing was scheduled to be changed on Tuesdays and Fridays. Per the schedule, the dressing should have been changed on 9/10/21 and 9/14/21, but was not. The dressing did not get changed because resident #5 missed her wound care appointment as she was not ready to go when the driver arrived, and he had other residents to take to appointments. The nursing documentation did not prompt the nurse to do the dressing change since it otherwise would have been done at the appointment. (See F600 for details.) The nurse on duty failed to ensure measures were taken for the resident's wound treatment that was missed.  A review of a facility document titled, Verification of Investigation, dated 9/17/21, showed the form was not filled out completely. There were four areas to fill out, provide a detailed description of event/allegation, assessment of resident/describe injury, resident interview summary, and immediate resident protection initiated. Only the first section, Provide detailed description of event/allegation, had anything written in it. The rest of the form was blank, other than a check mark in the box labeled YES for immediate resident protection initiated, but the form failed to describe the action provided for the resident or other investigation details.  2. A record review of a facility reported incident, dated 9/20/21, showed, resident #212 had not had his protective dressing changed for 14 days causing a wound to develop.  A record review of resident #212's TAR, dated September 2021, showed, the protective dressing was changed on 9/3/21, 9/21/21 and 9/24/21 but was not changed as ordered on 9/7121, 9/10/21, 9/10/21, 9/14/21 or 9/17/21. Showi		alleged neglect for 2 (#s 5 and sident #5 had not had her wound to be changed on Tuesdays and 0/21 and 9/14/21, but was not. The appointment as she was not appointments. The nursing to otherwise would have been done sure measures were taken for the 17/21, showed the form was not escription of event/allegation, mmediate resident protection ation, had anything written in it. The S for immediate resident protection to or other investigation details.  Pesident #212 had not had his the protective dressing was on 9/7/21, 9/10/21, 9/14/21 or wed, wound to heel measures 0.5 x eceiving a shower with foam heel or details.)  Peported incident.
	So, the form should guide the proof get to the resolution to the problem looked at her QAPI notes for that ti	ess for the follow up. It is a tool that is one of the second of the sec	created for (agency name) so you hem. Staff member A stated she ric in them that showed the facility

F 0760	Ensure that residents are free from	significant medication errors.	
Level of Harm - Minimal harm or potential for actual harm	45447		
Residents Affected - Few	Based on interview and record review, the facility failed to ensure nursing staff input the correct medication orders for 2 (#s 38 and 262) of 2 sampled residents. These deficient practices had the potential to increase the potential of a blood clot and stroke for resident #262, and delay healing for resident #38. Findings include:		
	1. During an interview on 2/16/22 at 10:30 a.m., staff member M stated there was a different process for entering Coumadin orders, compared to other orders, and the Coumadin orders were to be checked by two nurses. One nurse was to input the orders into the EMR, and those orders were to be checked by a second nurse right after they were entered.		
	During an interview on 2/16/22 at 10:33 a.m., staff member B stated the expectation for nursing staff, when entering an order for Coumadin, was to enter the order with an end date, the correct dose from the order, and to enter the order on the facility's Coumadin tracking sheet. Staff member B stated the facility had two nurses assess the order, and there were clinic meetings in the mornings where orders were also reviewed.		
	During an interview on 2/16/22 at 1:37 p.m., staff member B stated the facility was working on creating a policy and system for double checking all medication orders that were entered in the facility's EMR.		
	On 2/16/22 at 2:12 p.m., a request was given to staff member A for the facility's Coumadin order entering policy.		
	During an interview on 2/16/22 at 4:45 p.m., staff member A stated the facility did not have a policy for entering coumadin orders into the EMR.
