(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)			
F 0880 Level of Harm - Immediate jeopardy to resident health or safety	Review of the Outbreak Timeline provided by the facility revealed on [DATE] mass testing was completed for both staff and residents following a COVID-19 positive staff result on [DATE]. Five residents (#22, #47, #61, #128 and #383) tested positive for COVID-19 and were moved to the [NAME] building F unit which contained the COVID-19 positive unit.			
Residents Affected - Many	Review of the COVID-19 test result COVID-19 on [DATE].	ts provided by the facility revealed STN	IA #301 tested positive for	
	The facility conducted mass testing on [DATE] and an additional seven residents (#44, #52, #59, #64, #115, #384 and #482) tested positive for COVID-19. The entire F unit was then converted to the COVID-19 unit. Additionally, LPN #302 tested positive for COVID-19 on [DATE].			
	Review of the CDC guidelines revealed for residents with new-onset suspected or confirmed COVID-19 test results the facility should: Ensure the resident is isolated and cared for using all recommended COVID-19 PPE. Place the resident in a single room if possible pending results of SARS-CoV-2 testing. Cohorting residents on the same unit based on symptoms alone could result in inadvertent mixing of infected and non-infected residents (e.g., residents who have fever, for example, due to a non-COVID-19 illness could be put at risk if moved to a COVID-19 unit). If cohorting symptomatic residents, care should be taken to ensure infection prevention and control interventions are in place to decrease the risk of cross transmission. If the resident is confirmed to have COVID-19, regardless of symptoms, they should be transferred to the designated COVID-19 care unit. Roommates of residents with COVID-19 should be considered exposed and potentially infected and, if at all possible, should not share rooms with other residents unless they remain asymptomatic and/or have tested negative for SARS-CoV-2 14 days after their last exposure (e.g., date their roommate was moved to the COVID-19 care unit).			
	On [DATE] at 11:18 A.M. through 12:30 P.M. an initial observation of the G hallway, quarantine unit for COVID-19 exposure, revealed two red plastic biohazard totes sitting on the left side of the hallway with overflowing soiled PPE. Further observations revealed each resident room was not allotted a PPE storacontainer or a biohazard container to discard soiled PPE prior to leaving various resident rooms. STNA a LPN #304 and Housekeeper #305 were observed entering and exiting quarantine rooms without having covering over their N95 mask or changing their N95 mask upon exiting resident rooms. Additionally, the failed to cleanse their goggles between resident rooms. Three unidentified residents who were in quarar were outside the exit door at the end of the hallway smoking without social distancing between residents STNA #303. STNA #303 was not utilizing the required mask, eye protection, gown and gloves while supervising the quarantined residents who were smoking.		te left side of the hallway with in was not allotted a PPE storage various resident rooms. STNA #303, arantine rooms without having a sident rooms. Additionally, the staff of residents who were in quarantine all distancing between residents and	
	room, who were on quarantine for mask, carrying a clear plastic bag of soiled linen in a black plastic cover COVID-19 exposure, without change interview with STNA #304 confirmed	observation of STNA #302 revealed she exited Resident #32 and Resident #74's rantine for COVID-19 exposure, without a covering on her N95 or changing her N95 olastic bag of soiled linen. The STNA walked to the end of the hallway and placed to lastic covered trash can and entered Resident #36's room, who was on quarantine ithout changing her N95 mask or washing her hands and assisted Resident #36. 04 confirmed she did not change her N95 mask or wash and/or sanitize her hands

F 0880 Level of Harm - Immediate jeopardy to resident health or safety Residents Affected - Many	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information) On [DATE] at 1:12 P.M. observation of Housekeeper #305 revealed she exited Resident #62 and Resident #83's room who were on quarantine for COVID-19 exposure without a covering to her N95 mask or changing her mask. She placed her housekeeping cart on the right side of the hallway and exited the G unit (quarantine unit) with the same N95 mask she had on in the above-named resident room and failed to wash or sanitize her hands. Interview with Housekeeper #305 confirmed she had not changed her N95 mask or washed and/or sanitized her hands. Observation on [DATE] at 1:14 P.M. revealed STNA #307 exited Resident #87's (quarantined for COVID-19 exposure) room after providing care, walked to a black covered trash can, removed gown and gloves and walked down the hallway. Interview with STNA #307 verified at the time of the observations she had not sanitized her hands or changed her N95 mask once she completed her care for Resident #87. On [DATE] at 1:22 P.M. Activity Assistant #306 was observed exiting the G unit (quarantine unit) with a mechanical lift without sanitizing the equipment prior to exiting the unit. After surveyor intervention, Activity Assistant #306 stopped RN #468 and asked if she was supposed to do anything with the mechanical lift. On [DATE] at 2:07 P.M. the G unit (quarantine unit) meal cart was delivered by an unidentified dietary aide wearing an N95 mask. The dietary aide's goggles were sitting on top of his head. The dietary aide was observed exiting the unit with the same N95 mask and failed to cleanse his hands and goggles. On [DATE] at 2:11 P.M. observation of STNA #307 revealed she delivered Resident #284, who was in quarantine, his lunch meal with a gown, gloves, N95 mask and goggles in place. She exited the room, walked down the hallway to the meal cart and obtained Resident #131's lunch tray. The STNA walked back to Resident #131's room and entered the room. The resident		
	prior to donning the clean PPE. On [DATE] at 4:20 P.M. observation of STNA #506 revealed the STNA exited Resident #383's (COVID-19 positive resident) room wearing full PPE, walked to other end of the COVID-19 unit to the biohazard bin, took off her PPE, did not wash hands, washed her eye protection, donned clean PPE then washed hands. The STNA verified that she walked across the covid unit with soiled PPE and did not wash her hands after removing the soiled PPE. (continued on next page)
