(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)
<p>F 0558</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>Reasonably accommodate the needs and preferences of each resident.</p> <p>31760</p> <p>Based on a review of clinical records as well as staff interviews, it was determined that the facility failed to accommodate a resident's preference for a shower for one of 48 residents reviewed (Resident 38).</p> <p>Findings include:</p> <p>A quarterly Minimum Data Set (MDS) assessment (a mandated assessment of a resident's abilities and care needs) for Resident 38, dated February 8, 2023, revealed that the resident was understood, could understand, and required extensive assistance from staff for his daily care tasks, including with personal hygiene. A care plan for the resident, dated June 27, 2019, revealed that the resident required assistance with dressing, personal hygiene, walking, transferring, toileting, changing position in bed, and eating and that staff would follow the resident's preferred shower schedule.</p> <p>Review of Resident 38's bathing records for January and February 2023 revealed that the resident preferred to receive a shower and was scheduled to receive his shower on Tuesdays and Fridays during the evening (2:00 p.m. to 10:00 p.m.) shift. Documentation for Tuesday, January 3, 10, and 24, 2023, revealed that the resident received a bed bath and did not receive a shower as he preferred. Documentation for Tuesday, January 17 and 31, 2023, and February 14, 2023, revealed that staff documented N/A meaning non-applicable. Documentation for Friday, January 6, 13, 20, and 27, 2023, revealed that the resident received a bed bath and did not receive a shower as he preferred. Documentation for Friday, February 17, 2023, revealed that staff documented N/A meaning non-applicable.</p> <p>Interview with the Director of Nursing on February 24, 2023, at 3:45 p.m. confirmed that there was no documented evidence of why Resident 38 was provided bed baths instead of showers, as preferred. She indicated that they would have to provide education to the staff because they should not be documenting N/A.</p> <p>28 Pa. Code 211.12(d)(5) Nursing services.</p>

Any deficiency statement ending with an asterisk (\*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

<p>F 0576</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>Ensure residents have reasonable access to and privacy in their use of communication methods.</p> <p>38012</p> <p>Based on resident and staff interviews, it was determined that the facility failed to ensure that mail was delivered to residents six days a week.</p> <p>Findings include:</p> <p>During a meeting with a group of residents on February 23, 2023, at 10:00 a.m. the residents revealed that their mail was not being delivered to them regularly. The residents indicated that the mail is delivered to a locked box outside the facility and a staff member in the business office goes out to get the mail. However, she does not go to collect it everyday. And there are days when she does go to collect the mail, but does not sort it or pass it for another day or two.</p> <p>Interview with the Activities Director on February 24, 2023, at 3:08 p.m. revealed that she received the mail from the business office and then delivered the mail to the residents. She indicated that she did not work the weekends and was the only staff member that delivered the mail to the residents; however, she only delivered the mail Monday through Thursday.</p> <p>Interview with the Business Office Manager on February 24, 2023, at 3:16 p.m. confirmed that she would get the mail from the mailbox, sort it, and then give it to the Activities Director to deliver to residents. She indicated that she only checked the mailbox Monday through Thursday and did not work the weekend to get the mail.</p> <p>28 Pa. Code 201.18(e)(1) Management.</p> <p>28 Pa. <p>F 0584</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>Observations of the west hall emergency exit doors revealed that there was a large collection of dust and dead insects lying between the double doors. There was a hole the size of a softball in the wall near the floor next the double doors. The hole exposed the inside of the wall, which included dirt and debris.</p> <p>Interview with the Maintenance Director on February 22, 2023, at 3:18 p.m. confirmed that the above residents' rooms needed repaired and painted. He stated the odor was coming from the visitor's bathroom and that the grinder was clogged and he had worked on it earlier that morning. He further stated that there was no active plan to fix any of the rooms or bathrooms, or to replace any of the furniture that was in ill repair.</p> <p>28 Pa. Code 207.2(a) Administrator's responsibility.</p>

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)
<p>F 0658</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>Ensure services provided by the nursing facility meet professional standards of quality.</p> <p>31760</p> <p>Based on review of the Pennsylvania Nurse Practice Act, facility policies, and residents' clinical records, as well as staff interviews, it was determined that the facility failed to ensure that physician's orders were clarified for two of 48 residents reviewed (Residents 3, 142).</p> <p>Findings include:</p> <p>The Pennsylvania Code, Title 49, Professional and Vocational Standards, State Board of Nursing, 21.11 (a)(1)(2)(4) indicated that the registered nurse was to collect complete and ongoing data to determine nursing care needs, analyze the health status of individuals and compare the data with the norm when determining nursing care needs, and carry out nursing care actions that promote, maintain and restore the well-being of individuals.</p> <p>The facility's policy regarding pain management guidelines, dated November 28, 2022, revealed that the policy was to provide guidance for consistent assessment, management, and documentation of pain in order to provide maximum comfort and enhanced quality of life, in concert with the resident's plan of care and goals for pain management. The resident identifies pain on a 0 (zero) to 10 scale. 0 (zero) equals no pain and 10 equals the worst pain imaginable (very severe or horrible).</p> <p>A quarterly Minimum Data Set (MDS) assessment (a federally-mandated assessment of a resident's abilities and care needs) for Resident 3, dated December 29, 2022, revealed that the resident was understood, could understand, and required extensive assistance from staff for her daily care tasks. A care plan for the resident, dated August 9, 2022, revealed that the resident had pain related to Rheumatoid Arthritis (a autoimmune disease that causes joint inflammation and pain) and that staff were to administer her as needed medications for breakthrough pain per the physician's orders, as well as note the effectiveness.</p> <p>Physician's orders for Resident 3, dated August 8, 2022, included orders for the resident to receive two 325 milligram (mg) tablets of Tylenol (an over-the-counter pain medication) every six hours as needed for pain.</p> <p>Physician's orders for Resident 3, dated August 30, 2022, included orders for the resident to receive one 50 mg tablet of Tramadol (used to relieve moderate to moderately severe pain) every six hours as needed for breakthrough pain.</p> <p>Resident 3's pain medication orders did not include parameters for what pain intensity ratings were to be considered mild, moderate and severe pain, so that nurses could determine which medication to administer.</p> <p>(continued on next page)</p>

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
<p>F 0677</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>Provide care and assistance to perform activities of daily living for any resident who is unable.</p> <p>19102</p> <p>Based on review clinical records, as well as observations and staff interviews, it was determined that the facility failed to provide appropriate services to maintain personal hygiene, by failing to provide showers as scheduled for two of 48 residents reviewed (Residents 23, 55), and failing to provide nail care for one of 48 residents reviewed (Resident 23)</p> <p>Findings include:</p> <p>A quarterly admission Minimum Data Set (MDS) assessment (a mandated assessment of a resident's abilities and care needs) for Resident 23, dated December 10, 2022, revealed that the resident was cognitively intact and required extensive assistance of two staff for all care needs. The facility's current shower schedule revealed that Resident 23 was to receive showers on the 2:00 p.m. to 10:00 p.m. shift every Wednesday and Saturday. However, the resident's bathing records for December 2022, January 2023, and February 2023, revealed that staff did not provide showers as scheduled.</p> <p>Observation during a resident interview on February 22, 2023, at 2:34 p.m. revealed that all of Resident 23's fingernails were long and had a brown, crusty substance under each nail.</p> <p>Interview with Resident 23 on February 22, 2023, at 2:34 p.m. revealed that he did not receive showers and that he was provided with bed baths. Resident 23 stated that he would like to have showers once in a while instead of a bed bath all of the time. He also stated that he would like to have his fingernails cleaned and trimmed.</p> <p>Interview with Director of Nursing on February 22, 2023, at 4:50 p.m. confirmed that there was no documented evidence that Resident 23 received showers as scheduled and that his fingernails should be clean and trimmed as a part of daily care.</p> <p>A quarterly MDS assessment for Resident 55, dated November 23, 2022, revealed that the resident was cognitively intact and required physical help from staff with part of her bathing. The resident's current care plan revealed that she required assistance with showers.</p> <p>Interview with Resident 55 on February 23, 2023, at 10:01 a.m. revealed that she was not receiving her showers as scheduled and staff were telling her that they did not have enough staff to get showers done.</p> <p>The facility's current shower schedule revealed that Resident 55 was to receive showers on the 6:00 a.m. to 2:00 p.m. shift every Monday and Thursday. However, the resident's bathing records for December 2022, as well as January and February 2023, revealed that staff did not provide showers on Mondays and/or Thursdays on December 1, 5, 15, 19, 29, 2022, and January 2, 5, 9, 16, 23, and February 2, 13, 16, 20, 2023. The shower temperature logs for December 2022 and January and February 2023 revealed that there was no shower provided to the resident on the mentioned dates. There was no documented evidence that Resident 55 was offered and refused a shower on any of these days.</p> <p>(continued on next page)</p>

<p>F 0679</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>An interview with a group of residents on February 23, 2023, at 10:00 a.m. revealed that there are not enough activities for them and they would like more. They stated that there is usually only one before lunch if the activity worker has time for it, then one after lunch. There are no activities on the weekend and they would like some.</p> <p>Interview with the Activity Director on February 24, 2023, at 3:28 p.m. revealed that she is the only staff member in her department and that she is not able to transport residents from all three units to the activity by herself and then hold the activity. She stated that after she gets residents into the activity she is not able to leave the room because the residents from the upstairs unit wander out and she must stay with them. After the activity starts if a resident wants to leave, she has to leave to take them back to their room, which interrupts or stops the activity. She stated she is not able to get the activities on the calendar completed because she does not have enough time but that she knows the residents would like more activities. She further stated that she does not work seven days a week and therefore there are only activities on the days that she is able to work.</p> <p>Interview with the Nursing Home Administrator on February 24, 2023, at 3:45 p.m. confirmed that the activities department only has one staff member and that she is not able to do as much as the residents would like her to do.</p> <p>28 Pa. (X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
<p>F 0684</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>There was no documented evidence as of February 23, 2023, that Resident 49 had appointments scheduled to see orthopedics or the cancer center and/or went to see orthopedics or the cancer center as recommended by the hospital discharge instructions.</p> <p>Interview with Medical Records/Scheduler 7 on February 23, 2023, at 9:50 a.m. revealed that she will receive appointment papers from nursing and she will then schedule the appointments. She indicated that she received Resident 49's appointment papers from nursing within the past week and has not gotten to scheduling the appointments yet because she has been working the floor.</p> <p>Interview with the Director of Nursing on February 24, 2023, at 2:40 p.m. revealed that Resident 49 does not wish to follow up with orthopedics, and that she was trying to find the documentation supporting the resident's request. She also revealed that there was no documented evidence until February 24, 2023, that arrangements for the cancer center appointment was made.</p> <p>An annual MDS assessment for Resident 67, dated November 2, 2022, revealed that the resident was understood, could understand, and had a diagnosis of diabetes. A care plan for the resident, dated January 15, 2021, revealed that the resident had diabetes and that staff were to provide the resident's insulin coverage per the resident's individual physician's order.</p> <p>Physician's orders for Resident 67, dated August 20, 2022, included an order for the resident to receive Novolog Insulin (rapid-acting insulin) per a sliding scale (the amount of insulin given is determined by the blood sugar level). Staff was to call the physician with a blood sugar level of 451 milligram/deciliter (mg/dL) and higher.</p> <p>MARs for Resident 67 for February, 2023, revealed that the resident had a blood sugar level of 457 mg/dL on February 1, 2023, at 4:30 p.m. and a blood sugar level of 597 mg/dL on February 19, 2023, at 8:00 p.m.</p> <p>There was no documented evidence that Resident 67's physician was contacted regarding the elevated blood sugars on the above dates.</p> <p>Interview with the Director of Nursing on February 23, 2023, at 4:40 p.m. confirmed that there was no documented evidence that Resident 67's physician was contacted regarding the elevated blood sugars on the above dates.</p> <p>The facility's policy regarding medication administration, dated November 28, 2022, indicated that medications were to be administered as ordered by the physician.</p> <p>A quarterly MDS assessment for Resident 21, dated December 2, 2022, revealed that the resident was cognitively intact and required supervision with daily care needs. Current physician's orders for the resident included orders for 10 milligrams (mg) Aripiprazole (anti-psychotic), 8.6 mg (2 tablets) senna (stool softener), 50 mg trazodone (antidepressant), 1000 micrograms (mcg) vitamin B12, 100 mg vitamin B6, 5000 international units (iu) vitamin D3; 5000 mcg biotin (vitamin), 100 mg colace (stool softener), 10 mg baclofen (muscle relaxer), 500 mg Tylenol (2 tablets), 1 percent Voltaren gel (pain gel).</p> <p>(continued on next page)</p>

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
<p>F 0684</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>A quarterly MDS assessment for Resident 27, dated December 19, 2022, revealed that the resident was cognitively intact and required assistance from staff for her daily care needs. Current physician's orders included orders for the resident to receive 81 mg aspirin, 10 mg lisinopril (blood pressure), 187.5 mg Effexor (antidepressant), 100 mg colace, 0.5 mg lorazepam (antianxiety), 10 mg memantine (memory loss), 500 mg Metformin (diabetes), 17 gm miralax (stool softener), 3 mg risperdal (antipsychotic), and 50 mg Trazodone (antidepressant).</p> <p>A quarterly MDS assessment for Resident 30, dated December 22, 2022, indicated that the resident was cognitively intact and required staff assistance for daily care needs. Current physician's orders included orders for the resident to receive 900 mg gabapentin (neuropathy medication), 2.5 mg lisinopril (blood pressure), 1 capsule probiotic (vitamin), 18 mcg Spiriva one puff (asthma), 250 mg calcium citrate, 20 mg famotidine (indigestion), 12 units Humalog (diabetes), and sliding scale Humalog insulin coverage.</p> <p>A quarterly MDS assessment for Resident 60, dated December 18, 2022, indicated that the resident was cognitively intact and required assistance from staff for her daily care needs. Current physician's orders included orders for the resident to receive 50 mg Aldactone (blood pressure), 10 mg amlodipine (blood pressure), 81 mg aspirin, 325 mg iron, 20 mg Fluoxetine (antidepressant), 1 multi-vitamin tablet, and 10 mg baclofen (anti-spasmodic).</p> <p>A quarterly MDS assessment for Resident 242, dated October 23, 2022, indicated that the resident was cognitively intact and required assistance from staff for transfers. Current physician's orders included orders for the resident to receive 200 mg Amiodarone (heart medication), 5 mg amlodipine (blood pressure), 500 mg ascorbic acid (supplement), 10 mg atorvastatin (high cholesterol), 1 mg bumetanide (water pill), iron 325 mg, 1 mg folic acid (supplement), 1 mg Miralax, 40 mg pantoprazole, 100-62.5-25 mg 1 inhalation Trelegy Ellipta (for breathing), 10000 units Vitamin A, 220 mg zinc (vitamin), and 12.5 mg Metoprolol (blood pressure).</p> <p>A comprehensive MDS assessment for Resident 243, dated October 17, 2022, indicated that she was cognitively intact and required assistance from staff for daily care needs. Current physician's orders included an order for the resident receive 10 mg Lexapro (antidepressant), Fluoxetine (antidepressant) 20 mg, 200 mg methadone (pain management), 10 mg oxybutynin, (overactive bladder), 40 mg pantoprazole (indigestion).</p> <p>A review of the facility's investigation report, dated November 18, 2022, revealed that Licensed Practical Nurse 3 failed to medicate Residents 21, 27, 30, 60, 242, 243 during her shift on November 12, 2022. The Assistant Director of Nursing was called and told that Licensed Practical Nurse 3 did not medicate her residents on the daylight shift.</p> <p>Housekeeper 6 indicated in her statement, dated November 13, 2022, that she observed Licensed Practical Nurse 3 standing at the medication cart and playing with her fingernails but not going in and out of resident rooms.</p> <p>Registered Nurse 5 indicated in her statement, dated November 12, 2022, that she asked Licensed Practical Nurse 3 if she had medicated her residents and she stated that she had, but that she was behind. She stated that when she went to interview Licensed Practical 3 again that she was in the bathroom for over 20 minutes and would not come out.</p> <p>(continued on next page)</p>

<p>F 0687</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>Provide appropriate foot care.</p> <p>43856</p> <p>Based on review of policies and clinical records, as well as observations and resident and staff interviews, it was determined that the facility failed to ensure that foot care needs were provided timely for one of 48 residents reviewed (Resident 23).</p> <p>Findings include:</p> <p>The facility's policy regarding podiatry services (specialized foot care), dated November 28, 2022, indicated that the facility would assist residents in obtaining needed podiatry services, including routine services. This requirement makes the facility directly responsible for the podiatry needs of the residents. The facility will make provisions to ensure that the resident receives medically-necessary services associated with disease process to include diabetic care, including nail care as appropriate.</p> <p>A quarterly Minimum Data Set (MDS) assessment (a mandated assessment of a resident's abilities and care needs) for Resident 23, dated December 10, 2022, indicated that the resident was alert and oriented and required extensive assistance for bed mobility, dressing and hygiene. A diagnosis record, dated August 11, 2022, revealed that the resident had diabetes (disease that interferes with blood sugar control).</p> <p>Observations on February 21, 2022, at 12:56 p.m.; February 22, 2022, at 3:45 p.m.; and February 23, 2023, at 11:35 a.m. revealed that all of Resident 23's toenails were thick, elongated and curved with a length that varied from approximately one-half inch to one inch over the ends of his toes.</p> <p>Interview with Resident 23 on February 21, 2023, at 12:56 p.m. revealed that since admission on August 11, 2022, the facility had not offered to cut his toenails or provide podiatry care.</p> <p>Interview with Director of Nursing on February 22, 2023, at 4:50 p.m. confirmed that podiatry services were available to the residents in the facility and that Resident 23 had not received any since his admission but should have.</p> <p>28 Pa. Code 211.12(d)(3)(5) Nursing services.</p>

<p>F 0689</p> <p>Level of Harm - Actual harm</p> <p>Residents Affected - Few</p>	<p>Ensure that a nursing home area is free from accident hazards and provides adequate supervision to prevent accidents.</p> <p>19102</p> <p>Based on a review of facility policies, facility reports, and clinical records, as well as staff interviews, it was determined that the facility failed to ensure that a resident's environment remained as free of accident hazards as possible by failing to provide assistance and supervision during an outdoor activity for one of 48 residents reviewed (Resident 13), which resulted in a fracture; failed to provide ongoing supervision in the bathroom for one of 48 residents reviewed who was identified as a fall risk, which resulted in a fall with a fracture for the resident (Resident 74); failed to ensure that a safe environment was provided by failing to secure syringes and lancets for two of 48 residents reviewed (Residents 6, 76) who had wandering behaviors; failed to ensure that a safe environment was provided by not following the facility's policy/protocol for elopements for one of 48 residents reviewed (Resident 24); and failed to complete thorough investigations into incidents for two of 48 residents reviewed (Residents 38, 74).</p> <p>Findings include:</p> <p>A quarterly Minimum Data Set (MDS) assessment (a mandated assessment of a resident's abilities and care needs) for Resident 13, dated May 10, 2022, revealed that the resident was cognitively impaired, did not walk, used a wheelchair, required supervision with locomotion (how resident moves between locations in wheelchair), and had diagnoses that included intellectual disabilities and schizophrenia (a serious mental disorder in which people interpret reality abnormally).</p> <p>A Certified Registered Nurse Practitioner (CRNP) note for Resident 13, dated May 12, 2022, at 10:27 a.m. revealed that the resident was seen for pain to his left middle finger that had swelling and bruising. He said his finger got caught in his wheelchair yesterday. The plan was to x-ray his left middle finger.</p> <p>A nursing note, dated May 12, 2022, at 10:48 a.m. revealed that while was passing medications to Resident 13 the resident showed the nurse a bruise on his left third finger and indicated that he did it on his wheelchair. He complained of pain and was unable to bend his finger. Staff witnessed the resident outside at a picnic yesterday and he started rolling down an embankment and therapy staff stopped him.</p> <p>X-ray results, dated May 12, 2022, revealed that Resident 13 had a fracture of the left third distal phalanx (tip of the finger).</p> <p>The facility's investigation report, dated May 12, 2022, revealed that Resident 13 had a dark purple bruise measuring 5.0 x 4.0 centimeters (cm) on his left third finger.</p> <p>(continued on next page)</p>

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
<p>F 0689</p> <p>Level of Harm - Actual harm</p> <p>Residents Affected - Few</p>	<p>A witness statement from Occupational Therapist 11, dated May 12, 2022, revealed that on May 11, 2022, during a picnic, Resident 13 had been cued to wheel himself to the picnic. The resident made his way out the door and proceeded to lose control as he rolled down the hillside. The other therapist yelled and everyone was alerted to the situation. Occupational Therapist 11 ran to the resident; however, by the time she got to him the wheelchair brakes were on. She grabbed the back handles of his wheelchair to prevent him from advancing further down the hill. The resident had no indication of injury after the incident.</p> <p>A statement from Resident 13, dated May 13, 2022, revealed that during an interview with the Director of Nursing on May 12, 2022, he revealed that he injured his finger at the picnic while propelling in his wheelchair.</p> <p>Interview with the Rehabilitation Director on February 23, 2023, at 3:42 p.m. revealed that during an outside picnic an activity staff assisted Resident 13 from inside the building to outside. The activity staff did not assist the resident while outside and he was going down the hill. He should have been assisted due to not being safe to go down the hill by himself. He put the break of his wheelchair on and hurt his finger.</p> <p>Interview from Occupational Therapist 11 on February 24, 2023, at 3:00 p.m. revealed that during an outside picnic staff left Resident 13 at the top of the hill and he lost control of his wheelchair and started to go down the hill unassisted. She indicated that the parking lot has a downhill dip and then continues to an embankment, which he could have gone over. The resident had his hands in the wheels of the wheelchair and put his brakes on half way down. She indicated that the resident could propel himself in his wheelchair but was not safe to propel himself down the hill of the parking lot.</p> <p>The facility's policy regarding falls, dated November 28, 2022, indicated that residents who experienced an actual fall (after one fall) would have an investigation completed to determine the root cause of the fall and/or if the event was isolated in nature. Immediate preventative measures would be implemented, and the fall would be reviewed to ensure the interventions were appropriate and evaluate the need for further interventions. The resident's care plan was to be updated with the new fall interventions.</p> <p>A quarterly Minimum Data Set (MDS) assessment (a mandated assessment of a resident's abilities and care needs) for Resident 74, dated June 13, 2022, revealed that the resident was alert and oriented and required extensive assistance from staff for bed mobility and transfers. He required extensive assistance of one staff for personal hygiene and total dependence for bathing and showers.</p> <p>Resident 74's care plan, dated March 21, 2022, included that he was at risk for falls, he was to be assisted with transfers, his bed was to be in a low position, and his call bell was to be always within reach.</p> <p>(continued on next page)</p>

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
<p>F 0689</p> <p>Level of Harm - Actual harm</p> <p>Residents Affected - Few</p>	<p>A nursing note for Resident 74, dated March 25, 2022, at 03:20 a.m. revealed that the resident was lying on his back on the bathroom floor. The resident indicated that he was attempting to take himself to the bathroom. The resident was assisted to a standing position and back to bed. X-rays were ordered of his right hip, shoulder and knee. He had no injuries from the fall, his bed was in low position, and he was reminded to use the call bell for assistance. There was no documented evidence that this fall was thoroughly investigated or that the resident's fall prevention care plan was updated with new and/or revised fall prevention interventions following this fall.</p> <p>A nursing note for Resident 74, dated April 5, 2022, at 10:00 a.m. indicated that the resident was found on the floor of his room in front of his wheelchair. The resident stated that he slid out of his wheelchair after using the bathroom. The resident complained of right hip pain and an x-ray was ordered with negative results. The resident was reminded to ask for assistance when needed. There was no documented evidence that this fall was thoroughly investigated or that the resident's fall prevention care plan was updated with new and/or revised fall prevention interventions following this fall.</p> <p>A nursing note for Resident 74, dated April 10, 2022, at 17:23 p.m. indicated that the resident was attempting to self-transfer from his wheelchair to bed and slipped at the side of the bed landing on his knees facing the bed with his arms on the bed. The bed was not in its lowest position. The resident was assisted back to bed. The resident complained of knee pain and x-rays were ordered with negative results. There was no documented evidence that this fall was thoroughly investigated or that the resident's fall prevention care plan was updated with new and/or revised fall prevention interventions following this fall.</p> <p>A nursing note for Resident 74, dated May 7, 2022, at 14:20 p.m. indicated that the resident was found on the floor of his bathroom after attempting to self-transfer from his wheelchair to the toilet. The resident denied pain or injury, and he was assisted back to his wheelchair. There was no documented evidence that this fall was thoroughly investigated or that the resident's fall prevention care plan was updated with new and/or revised fall prevention interventions following this fall.</p> <p>A nursing note for Resident 74, dated June 15, 2022, at 10:47 a.m. indicated that the resident had reported that he had a fall in the shower on June 14, 2022, in the afternoon. He was self-transferring from a shower chair to his wheelchair after waiting for 45 minutes for assistance. The resident was placed back in bed with no registered nurse assessment completed. The resident complained of hip pain and was immediately assessed on June 15, 2022, at 10:47 a.m. and x-rays of right hip were obtained. Results indicated that resident had a right femoral neck fracture. He was sent to the emergency room and was admitted . He had surgery to repair the right femoral neck fracture.</p> <p>There was no documented evidence that this fall was thoroughly investigated or that the resident's fall prevention care plan was updated with new and/or revised fall prevention interventions following this fall.</p> <p>Interview with the Director of Nursing on February 23, 2023, at 2:45 p.m. confirmed that Resident 74's fall incidents were not thoroughly investigated and there were no new or revised interventions attempted after each of Resident 74's falls to try to prevent further falls and/or injury.</p> <p>The facility's policy regarding medication storage, dated November 28, 2022, indicated that medications and medical products would be stored safely.</p> <p>(continued on next page)</p>

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
<p>F 0689</p> <p>Level of Harm - Actual harm</p> <p>Residents Affected - Few</p>	<p>A quarterly MDS assessment for Resident 6, dated January 30, 2023, revealed that the resident was cognitively impaired, required staff assistance with care, and was able to self propel around the unit in his wheelchair.</p> <p>A quarterly MDS assessment for Resident 76, dated February 1, 2023, revealed that the resident was cognitively impaired and could ambulate independently.</p> <p>Observations in the second dining room on the second floor on February 21, 2023, at 12:50 p.m. revealed that there were four boxes of insulin syringes, nine boxes of lancets (contains small needle to prick the finger), oxygen tubing, nasal cannulas, and wound care supplies in the room. The door to the room was propped open and the supplies were sitting inside the room in boxes. They were not secured or locked up. At that time, Resident 6 was sitting outside the room near the window and Resident 76 was observed walking around in the hallway and wandering in and out of various rooms.</p> <p>Interview with Licensed Practical Nurse 4 on February 21, 2023, at 12:55 p.m. revealed that they have been using the room as a store room because the storage room is full and the supply person recently quit so the new person does not know where to put the stuff. She then left the room and did not pull the door shut or secure the supplies. At 1:02 p.m. the Director of Nursing and Nursing Home Administrator arrived on the unit.</p> <p>Interview with the Nursing Home Administrator and Director of Nursing on February 21, 2023, at 1:02 p.m. confirmed that medical supplies should not have been in the dining room and that they should have been secured.</p> <p>The facility's policy for resident elopement, dated November 28, 2022, revealed that cognitively impaired residents at risk for elopement would be appropriately monitored to reduce the potential for injury. Elopement was defined as a resident leaving the physical structure of the facility without the knowledge of facility staff. Cognitively impaired residents with the physical ability to leave the facility without assistance, and who have demonstrated or vocalized a desire to leave the facility, will be placed on a unit with an electronic monitoring system or similarly secured unit. In the event that a resident was identified as missing, the following steps were to be taken: The charge nurse would initiate a search on the unit to determine if the resident was in another location. The charge nurse would notify the nursing supervisor or designee that they have been unable to locate a resident during a routine check. The nursing supervisor was to notify the other units. Each unit would conduct a search for the resident. The nursing supervisor was to assign staff members to search non-resident areas and the facility perimeter. If the resident was not located within ten minutes the Director of Nursing and Nursing Home Administrator would be notified of the possible elopement.</p> <p>A quarterly MDS assessment for Resident 24, dated November 2, 2022, indicated that the resident was cognitively impaired, required supervision from staff for ambulation, and had diagnoses that included anxiety and depression.</p> <p>A physician's order and nursing note, dated June 14, 2022, indicated that Resident 24's wanderguard (alarm system that alerts when too close to exit doors) was discontinued due to no attempts to elope. An elopement risk assessment, dated September 26, 2022 revealed Resident 24 was not an elopement risk.</p> <p>(continued on next page)</p>

<p>F 0689</p> <p>Level of Harm - Actual harm</p> <p>Residents Affected - Few</p>	<p>A nursing note, dated December 4, 2022, at 3:57 p.m. revealed that therapy staff informed the registered nurse that Resident 24 was witnessed walking outside of the building and past the therapy room at approximately 2:15 p.m. The breezeway door alarm was heard shortly beforehand but was then silenced. Therapy staff and the nurse aide went outside and redirected and escorted the resident back into the building with no incident. The resident was wearing socks and shoes, long pants, and a t-shirt, and the temperature outside was 38 degrees Fahrenheit.</p> <p>The facility's investigation report, dated December 4, 2022, revealed that an employee reported a resident being observed outside of the physical therapy room along the side of the building. The resident was walking along side the building on the pavement.</p> <p>A witness statement from Nurse Aide 12, dated December 4, 2022, revealed that at approximately 2:15 p.m. the therapist went to the nurse's station and said that a resident from upstairs was outside. When they went outside they found Resident 24 outside at the side of the building.</p> <p>A witness statement from Physical Therapy Assistant 13, dated December 24, 2022, revealed that while he was completing his documentation in the rehabilitation office, he noticed Resident 24 walking alone outside of the building.</p> <p>A witness statement from Nurse Aide 14, dated December 24, 2022, revealed that while in the nurse's station around 2:15 p.m. she heard the buzzing of the breezeway door and about one minute or so afterwards Physical Therapy 13 notified her that he just saw a resident from upstairs walking outside.</p> <p>A witness statement from [NAME] 15, dated December 4, 2022, revealed that she was in the cooler and when she heard the alarm sound, she went over and turned the alarm off and then stepped out as far as she could without letting the door close. After looking in both directions and not seeing anyone, she went back into the building and shut the door behind her.</p> <p>Interview with [NAME] 15 on February 24, 2023, at 1:23 p.m. revealed that she heard the door alarm sound, opened the door and looked up and down, and did not see anybody. She indicated that she did not do a thorough search for the resident and did not notify a supervisor that the alarm had sounded and that no resident was seen. She indicated that she did not recall receiving any training regarding resident elopements and that the alarm to the breezeway door was sounding.</p> <p>Interviews with the Nursing Home Administrator on February 22, 2023, at 3:33 p.m. and February 23, 2023, at 12:14 p.m. confirmed that Resident 24 did elope outside and the staff member who responded to the alarm and shut it off went outside to look but did not do a thorough search for the resident or notify the supervisor that the alarm to the outside door had sounded and that no resident had been found. He indicated that Resident 24 was confused, resided upstairs, and must have gotten on the elevator to come downstairs. He confirmed that he could find no completed elopement training for [NAME] 4.</p> <p>The facility's policy regarding accidents, incidents, investigating and recording, dated November 28, 2022, revealed that an investigation is implemented and witness statements obtained.</p> <p>(continued on next page)</p>

<p>F 0689</p> <p>Level of Harm - Actual harm</p> <p>Residents Affected - Few</p>	<p>An annual MDS assessment for Resident 38, dated November 5, 2022, revealed that the resident was usually understood, could usually understand, required assistance from staff for his daily care tasks, had a diagnosis of dementia and used a Wander/Elopement alarm daily. A care plan for the resident, dated December 28, 2018, revealed that the resident was an elopement risk.</p> <p>A quarterly elopement risk assessment for Resident 38, dated November 4, 2022, revealed that the resident was at risk for elopement.</p> <p>A progress note for Resident 38, dated November 6, 2022, at 8:39 a.m. revealed that the resident eloped from the building via the breezeway door. The resident stated that he was going home. The resident was redirected back into his room in the facility and 15-minute safety checks were initiated. A progress note for the resident on November 6, 2022, at 2:29 p.m. revealed that the registered nurse supervisor had notified the nurse that the resident was observed sitting outside in his wheelchair near the breezeway door at approximately 8:45 a.m. The nurse administered his morning medications around 8:10 a.m. At that time, the resident was sitting in his room in his wheelchair wearing sweatpants, a zip-up hoodie, boots, and a hat. The resident was compliant with the medication administration and was not agitated. He was last observed eating breakfast in his room.</p> <p>A facility investigation report for Resident 38, dated November 6, 2022, revealed that the resident eloped from the facility around 8:49 a.m. through the breezeway door that had been propped open by dietary staff. Resident 38 was wearing a grey sweatshirt, sweatpants, boots, and a hat. He was sitting in his wheelchair directly outside of the building. The resident was easily directed back into his room in the facility and was placed on 15-minute checks for elopement prevention.</p> <p>A witness statement completed by Licensed Practical Nurse 16, dated November 6, 2022, revealed that she was administering morning medications to Resident 38 around 8:10 a.m. The resident was sitting in a wheelchair in his room wearing sweat pants, a zip-up hoodie, boots, and a hat. The resident was compliant with medication administration, was not agitated, and was last observed eating breakfast in his room. Registered Nurse Supervisor 17 notified the nurse that the resident was observed outside the breezeway door around 8:45 a.m.</p> <p>A witness statement completed by Registered Nurse Supervisor 17, dated November 6, 2022, revealed that Resident 38 eloped from the building at 8:39 a.m. She was escorting Emergency Medical Services (EMS) through the hallway when the breezeway door alarmed. [NAME] 15 saw the resident going through the door and into the parking lot. She assisted with getting the resident back into the facility. He stated, I was going home. The resident was easily able to be redirected back into his room in the facility. She last saw the resident in his room at 7:00 a.m. eating breakfast.</p> <p>A corrective action form, dated November 8, 2022, was provided to Dietary Worker 18 for failure to follow instructions. The entryway door was propped open while Dietary Worker 18 removed garbage. She accidentally left the door propped open. Corrective action included keeping the door securely closed at all times when deliveries are received and the door will remain closed upon completion.</p> <p>(continued on next page)</p>

<p>F 0689</p> <p>Level of Harm - Actual harm</p> <p>Residents Affected - Few</p>	<p>Interview with [NAME] 15 on February 24, 2023, at 1:05 p.m. revealed that she was in the freezer and heard the door alarm, so she came out to investigate. When she looked outside she saw Resident 38 outside. She went out to get the resident and convinced him to come back in by offering him some food. She indicated that the door was closed when she went to see why the alarm was sounding. She indicated that there are two alarms to that door. One door alarm, which she said was the one that was sounding, and another one that is louder and you need to use the keypad to deactivate it. She indicated that she had asked about providing a statement, but they told her that they would take care of it.</p> <p>Interview with Dietary Worker 18 on February 24, 2023, at 1:45 p.m. revealed that she was working alone that weekend and placed a rag in the door so that she could get back into the facility. She indicated that she did not complete a statement and that she received re-education from the registered nurse supervisor and then received a disciplinary action from the dietary manager.</p> <p>There was no documented evidence that witness statements were obtained from [NAME] 15 and Dietary Worker 18 when the incident occurred.</p> <p>Interview with the Director of Nursing on February 24, 2023, 2:05 p.m. confirmed that statements were not obtained from [NAME] 15 and Dietary Worker 18 and should have been.</p> <p>28 Pa. <p>F 0690</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>Provide appropriate care for residents who are continent or incontinent of bowel/bladder, appropriate catheter care, and appropriate care to prevent urinary tract infections.</p> <p>19102</p> <p>Based on review of clinical records, as well as staff interviews, it was determined that the facility failed to ensure that residents received care and treatment in accordance with professional standards of practice by failing to ensure that the attending physician was notified timely about hospital discharge recommendations for follow-up appointments for one of 48 residents reviewed (Resident 49) and failed to change an indwelling urinary catheter as ordered by the physician for one of 48 residents reviewed (Resident 92).</p> <p>Findings include:</p> <p>An admission Minimum Data Set (MDS) assessment (a mandated assessment of a resident's abilities and care needs) for Resident 49, dated January 25, 2023, revealed that the resident was understood, usually understands, and required extensive assistance from staff for her daily care tasks. A care plan for the resident, dated January 20, 2023, revealed that the resident had an indwelling catheter related to hydronephrosis (a blockage of flow of urine due to an anatomical or functional cause)</p> <p>Hospital discharge instructions for Resident 49, dated January 18, 2023, revealed that the resident was to follow up with the urologist (a medical doctor specializing in conditions that affect the urinary tract) within one to two weeks after discharge from the hospital.</p> <p>However, as of February 23, 2023, there was no documented evidence that Resident 49 had an appointment scheduled to see the urologist as recommended by the hospital discharge instructions.</p> <p>Interview with Medial Records/Scheduler 7 on February 23, 2023, at 9:50 a.m. revealed that she will receive appointment papers from nursing and she will then schedule the appointments. She indicated that she received Resident 49's appointment papers from nursing within the past week and has not gotten to scheduling the appointments yet because she has been working the floor.</p> <p>Interview with the Director of Nursing on February 24, 2023, at 2:40 p.m. confirmed that there was no documented evidence as of February 24, 2023, that Resident 49 had an appointment scheduled with the urologist.</p> <p>A quarterly MDS assessment for Resident 92, dated November 28, 2022, indicated that the resident was cognitively impaired, required extensive assistance with daily care tasks, had an indwelling urinary catheter, and had diagnoses that included neurogenic bladder (a lack of bladder control due to a brain, spinal cord, or nerve condition) and dementia.</p> <p>Physician's orders for Resident 92, dated August 25, 2023, included an order for the resident to have an indwelling urinary catheter and it was to be changed every month. A care plan, dated September 6, 2020, indicated that the resident was to receive urinary catheter care every shift and as needed for soilage.</p> <p>(continued on next page)</p>

<p>F 0867</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>Set up an ongoing quality assessment and assurance group to review quality deficiencies and develop corrective plans of action.</p> <p>47819</p> <p>Based on review of the facility's plans of correction for previous surveys, and the results of the current survey, it was determined that the facility's Quality Assurance Performance Improvement (QAPI) committee failed to correct quality deficiencies and ensure that plans to improve the delivery of care and services effectively addressed recurring deficiencies.</p> <p>Findings include:</p> <p>The facility's deficiencies and plan of correction for the State Survey and Certification (Department of Health) surveys ending December 20, 2022; September 8, 2022; July 25, 2022; June 13, 2022; and March 31, 2022, revealed that the facility developed plans of corrections that included quality assurance systems to ensure that the facility maintained compliance with cited nursing home regulations. The results of these audits were to be reported to the QAPI committee for review. The results of the current survey, ending February 24, 2023, identified repeated deficiencies related to clean/homelike environment, resolving grievances, timing of minimum data sets, activities of daily living, quality of care, pressure ulcer development/prevention, safety/accidents, and profession standards.</p> <p>The facility's plan of correction for a deficiency regarding clean/homelike environment, cited during the survey ending March 31, 2022, revealed that the facility developed a plan of correction that included completing audits and reporting the results of the audits to the QAPI committee for review. The results of the current survey, cited under F584, revealed that the QAPI committee was ineffective in correcting deficient practices related to the clean/homelike environment.</p> <p>The facility's plan of correction for a deficiency regarding resolving grievances, cited during the survey ending December 20, 2022, revealed that the facility developed a plan of correction that included completing audits and reporting the results of the audits to the QAPI committee for review. The results of the current survey, cited under F585, revealed that the QAPI committee was ineffective in correcting deficient practices related to resolving grievances.</p> <p>The facility's plan of correction for a deficiency regarding timing of Minimum Data Sets, cited during the survey ending March 31, 2022, revealed that the facility developed a plan of correction that included completing audits and reporting the results of the audits to the QAPI committee for review. The results of the current survey, cited under F636, revealed that the QAPI committee was ineffective in correcting deficient practices related to timeliness of minimum data sets.</p> <p>The facility's plan of correction for a deficiency regarding professional standards, cited during the survey ending July 25, 2022, revealed that the facility developed a plan of correction that included completing audits and reporting the results of the audits to the QAPI committee for review. The results of the current survey, cited under F658, revealed that the QAPI committee was ineffective in correcting deficient practices related to professional standards.</p> <p>(continued on next page)</p>
