(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
<p>F 0600</p> <p>Level of Harm - Actual harm</p> <p>Residents Affected - Few</p>	<p>*Page two, Verbal: verbal abuse includes but not limited to the use of oral, written or gestured language. This definition includes communication that expresses disparaging and derogatory terms to residents within their hearing slash seeing distance.</p> <p>-Examples: name calling, swearing, yelling, threatening harm, trying to frighten the resident, racial slurs, etc.</p> <p>*Page two continued, Mental: mental abuse includes but is not limited to humiliation, harassment, threat of bodily harm, punishment, isolation (involuntary, imposed or seclusion) or deprivation to provoke fear of shame.</p> <p>*Page two continued, Involuntary Seclusion: Isolation of a resident against his/her will (involuntary, imposed seclusion) .</p> <p>-Examples: statements to threaten or actually secluding, isolating or locking a resident in their room or a room or area by themselves; leaving a resident in their room all day who does not wish to be left alone in his/her room all day.</p> <p>*Page three, Neglect: Neglect is the failure to provide necessary and adequate (medical, personal or psychological) care. Neglect is the failure to care for a person in a manner, which would avoid harm and pain, or the failure to react to a situation which may be harmful. Staff may be aware or should have been aware of the service the resident requires, but fails to provide that service.</p> <p>*Pages three and four indicated the screening process for potential applicants. There was no process mentioned for screening the facility's own personnel files for potential applicants who had worked at the facility previously.</p> <p>06365</p> <p>2. Interview on 9/29/22 at 11:24 a.m. with resident 73 during the resident group meeting revealed:</p> <p>*He sat on the toilet today for an hour before a medication aide arrived. He did not give a name.</p> <p>*She did not want to take the time to get the lift equipment and was going to physically help him stand up off the toilet.</p> <p>*He said no, but she said, 'I'm the boss, we'll do it my way.'</p> <p>*He refused again, and said he asked her what she was smoking, with some added offensive words.</p> <p>*The lift equipment was used to get him off the toilet.</p> <p>*Another staff person came and told him to apologize to the medication aide about his statement to her.</p> <p>Interview on 9/29/22 at 4:34 p.m. with licensed practical nurse (LPN) L revealed:</p> <p>(continued on next page)</p>

<p>F 0656</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>*The care plan should have indicated she currently had an UTI and was at risk for developing an UTI.</p> <p>*Resident preferences should be included in the care plan.</p> <p>9. Review of resident 56's electronic medical record revealed:</p> <p>*She had been hospitalized from 8/23/22 through 8/30/22.</p> <p>*Discharge orders from the hospital revealed she had two large serum filled blisters to her abdomen from a coffee burn that occurred during her hospital stay.</p> <p>*On 8/30/22 upon her return to the facility a hot liquid safety evaluation was completed and indicated she was at risk for hot liquid safety.</p> <p>-The evaluation had a text box at the bottom with instructions to add the interventions in the box.</p> <p>Review of resident 56's revised 6/15/22 care plan had not addressed:</p> <p>*Her risk for hot liquid safety.</p> <p>*Interventions put into place to prevent further hot liquid injuries.</p> <p>Interview on 10/03/22 at 4:13 p.m. with DON B regarding resident 56's care plan revealed:</p> <p>*The resident's risk for hot liquid injury should be care planned and interventions put into place to ensure it would not happen again.</p> <p>*The charge nurse does the assessments when residents are admitted or return from a hospitalization .</p> <p>*The interdisciplinary team is responsible to update care plans.</p> <p>10. Review of the provider's September 2019 Care Planning policy revealed:</p> <p>*Individual, resident-centered care planning will be initiated upon admission and maintained by the interdisciplinary team throughout the resident's stay to promote optimal quality of life while in residence. In doing so, the following considerations are made:</p> <p>1. Each resident is an individual. The personal history, habits, likes and dislikes, life patterns and routines, and personality facets must be addressed in addition to medical/diagnosis-based care considerations.</p> <p>2. Each resident has the right to be happy, continue their life-patterns as able, and feel comfortable in their surroundings.</p> <p>(continued on next page)</p>

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
<p>F 0656</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>3. Care planning is constantly in process; it begins the moment the resident is admitted to the facility and doesn't end until discharge or death.</p> <p>4. Each resident is included in the care planning process and encouraged to achieve or maintain their highest practicable physical and mental abilities through the nursing home stay.</p> <p>5. The physician's orders (including medications, treatments, labs, and diagnostics) in conjunction with the resident's care plan constitute the total 'plan of care.' Physician's orders are referenced in the resident's care plan, but not rewritten into that care plan.</p> <p>6. The DON will be responsible for holding the team accountable to initiating and completing the Admission care plan within 48 hours and the long-term care plan by day 21 and updated as necessary thereafter.</p> <p>*5. Interventions act as the means to meet the individual's needs (not to continue outmoded institutional practices). The recipe for care requires active problem solving and creative thinking to attain, and clearly delineates who, what, where, when, and how the individual resident goals are being addressed and met. Assessment tools are used to help formulate the interventions (they are not THE intervention).</p> <p>*9. Care Plans should be updated between care conferences to reflect current care needs of the individual resident as changes occur. When changes are made in the EHR [electronic health record] Care plan dates, time and name/initials are automatically entered.</p>

<p>F 0686</p> <p>Level of Harm - Actual harm</p> <p>Residents Affected - Few</p>	<p>Provide appropriate pressure ulcer care and prevent new ulcers from developing.</p> <p>**NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY** 41895</p> <p>Based on observation, interview, record review, and policy review, the provider failed to ensure one of one resident (20) with a facility acquired pressure ulcer had received necessary care and interventions to prevent her wound from developing and worsening. Findings include:</p> <p>1. Observation and interview on 9/27/22 at 4:02 p.m. with resident 20 revealed:</p> <p>*She had gone several weeks without a bath or a shower.</p> <p>*She could not recall the specific date but stated recently a staff person had assisted her into bed for the evening without changing her brief or removing her clothing. When she woke up in the morning, she was still in the same brief soiled with urine and stool and clothing.</p> <p>*She had been in her wheelchair since they had gotten her out of bed that morning around 10:00 a.m.</p> <p>*It was her normal routine to get up later in the morning around 10:00 a.m. and then be in her chair until the staff assisted her to lay down in the late afternoon or early evening.</p> <p>-She indicated staff usually would not check to see if she was dry, change her brief, or reposition her while she was up in her wheelchair.</p> <p>*In the evening when she was ready to lay down, at times it took up to two hours for staff to come assist her. She was often told 'just a minute' and then no one would come back to assist her.</p> <p>*After she was assisted into bed for the evening, the staff would usually come in between 9:00 p.m. and 10:00 p.m. to ensure her brief was dry, and then she did not get checked again until between 4:00 a.m. and 5:00 a.m.</p> <p>*Staff did not reposition her at night.</p> <p>*She did have a sore on her bottom and the nurses would put cream on it.</p> <p>Observation and interview on 9/28/22 at 3:39 p.m. with resident 20 revealed:</p> <p>*Staff had come in to change her soiled brief around 5:00 a.m. and then was not checked or changed again until she was assisted into her wheelchair for the day around 10:00 a.m.</p> <p>*She had not been changed or moved since they put her into the wheelchair.</p> <p>*She did not know if her brief was soiled or not.</p> <p>Observation on 9/28/22 at 10:51 a.m. of resident 20 in her bed laying on her side while certified nursing assistants (CNA) N and AA performed perineal cares revealed:</p> <p>*Her coccyx was reddened with pinpoint open areas to her lower back on her coccyx.</p> <p>(continued on next page)</p>

<p>F 0692</p> <p>Level of Harm - Immediate jeopardy to resident health or safety</p> <p>Residents Affected - Few</p>	<p>*A telemedicine consult on 8/3/22 at 4:28 p.m. noted the SP catheter was plugged and licensed practical nurse (LPN) L could not clear it with irrigation with an order request to send to the ER.</p> <p>*A nursing progress note on 8/21/22 at 4:24 p.m. reported, This am [before noon] prior to Renacidin Foley flush cna reported res [resident] peri [private] area very red with yellow discharge also reported res bypassing urine. Writer also observed res urine coming out of cath insertion site. Attempted to flush cath with renacidin which was a very hard flush. Only small amount went through actual catheter. Flushed cath with ns, then repeated renacidin clamped for 20 min. When disconnecting cath tubing for flush, res urine very thick like maple syrup, and slimy. Urine dark amber color, with very foul odor. Spoke with res about needing to increase fld [fluid] intake, and educated cna as well.</p> <p>*A faxed order on 8/22/22 directed 1500 cc [cubic centimeters] fluid per day, Please write a schedule & [and] make sure this is getting done and check UA [urinalysis] w/C&S [with culture and sensitivity].</p> <p>*An order was entered on 8/22/22 to give 500 mL of fluids TID.</p> <p>*A note faxed on 8/23/22 to the physician reported an open area to L [left] buttock cheek crease with an order to treat.</p> <p>*Two progress notes on 8/25/22 at 10:39 a.m. and 2:50 p.m. reported, catheter flushes unsuccessful and continues to bypass urine followed by a clinic appointment with a new catheter inserted and orders for next SP catheter change on 9/22/22.</p> <p>*Two progress notes on 9/2/22 reported:</p> <p>-At 10:53 a.m., the urine was completely bypassing catheter and [resident] is lying in urine from shoulders to knees. Sediment packed into catheter tubing and unable to flush with renacidin x 2. resident reports that catheter rarely flushed and has not been flushed in at least three days. some sediment loosened in catheter but unable to unpack. resident reports discomfort.</p> <p>-At 4:36 p.m., an order to obtain a UA and flush 2-3x [times] daily with renacidin (sic) to break down sediment.</p> <p>*A faxed note from the laboratory on 9/6/22 noted, urine sample contaminated. Is patient symptomatic? If symptomatic, collect urine sample again.</p> <p>*A progress note dated 9/8/22 reported urology orders related to UA for Nitrofurantoin [antibiotic] 100 mg [milligrams] bid [two times a day] for 3 weeks.</p> <p>*A progress note dated 9/21/22 reported MASD [moisture-associated skin damage] area to right gluteal [buttock] fold.</p> <p>Review of monitoring records in resident 16's EHR revealed:</p> <p>*The most recent basic metabolic laboratory (lab) report was dated 4/25/22. No further lab results were completed to evaluate her electrolyte balance.</p> <p>(continued on next page)</p>

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
<p>F 0692</p> <p>Level of Harm - Immediate jeopardy to resident health or safety</p> <p>Residents Affected - Few</p>	<p>Observations and interviews of resident 16 on 9/28/22 through 9/30/22 revealed she had dry, chapped lips with flakes of loose skin, dry mouth when she spoke, and her teeth were dull with yellow buildup. She required extensive assistance of one person to eat and drink. Her EHR revealed she has a suprapubic catheter that required two visits to the ER on [DATE] and 8/3/22 due to complications from a blocked catheter tube and large amounts of sedimentation. A health status note from 8/21/22 indicated she was bypassing the catheter, urine was coming out of catheter insertion site, they attempted to flush renacidin irrigation solution, very hard flush, they disconnected the catheter tubing for the flush, urine was very thick (like maple syrup, slimy, dark amber color, very foul odor). An order on 8/22/22 for a fluid goal of 1500 cc per day and to write a schedule and make sure that this is getting done was entered as an order to give 500mL of fluids TID; however, August and September 2022 fluid intake documentation was inconsistent with multiple days' worth of fluid intakes not documented making it difficult to determine actual fluid intake every day. The registered dietitian had not assessed her nutrition status since February 2022, and it did not include a fluid intake assessment. No other documentation was found in her record to indicate clinical review of fluid intake to ensure she was receiving adequate fluid intake. Lab results for the last six months revealed no labs had been obtained to evaluate her electrolyte balance. Bowel records showed she had only 5 movements in September 2022 with two times recorded as constipation. Random observations made by surveyors from 9/27/22 through 9/29/22 revealed staff do not pass fresh water to residents on a regular basis. Interviews with staff and residents confirmed those observation.</p> <p>IMMEDIATE JEOPARDY NOTICE</p> <p>On 9/30/22 at 11:15 a.m., administrator (ADM) A, director of nursing (DON) B, and regional nurse consultant (RNC) X were requested to provide a plan for removal of the immediate jeopardy that had been determined due to the provider's failure to have systems in place to monitor and ensure resident 16 received adequate hydration per orders placing her at increased risk for negative outcomes, including fluid and electrolyte imbalance, frequent ER visits due to thick urine, frequent UTIs, common symptoms of constipation, continued skin problems, and poor dentition.</p> <p>IMMEDIATE JEOPARDY REMOVAL PLAN</p> <p>On 9/30/22 at 1:21 p.m., ADM A, DON B, and RNC X provided an acceptable removal plan, Ad Hoc QAPI [quality assurance performance improvement], which included:</p> <p>1. Immediate corrective action for those affected by the deficient practice:</p> <p>*9/30/22 at 11:55AM Resident #16 was assessed for signs and symptoms of dehydration by [name] DON. Suprapubic Site no evidence of urine leakage, no redness, no warmth. Dressing changed, clean, dry, and intact on 09/30/22. Urine amber colored, and dense. Oral membranes were moist, tongue was moist, eyes were moist, lips were dry and cracked. Skin turgor appropriate. Skin turgor did not show tenting. Resident #16 Primary Care Provider was contacted on 09/30/22 at 12:15PM, left message, returned call at 1:00pm and ordered basic metabolic panel and continue to monitor.</p> <p>*Reviewed Resident #16 Order for 1500mL per day fluid goal, schedule as follows, Morning water pass minimum of 200mL, Lunch minimum of 420mL, Afternoon water pass 240mL, Supper minimum of 420mL, NOC [night] shift minimum of 260mL.</p> <p>(continued on next page)</p>

<p>F 0692</p> <p>Level of Harm - Immediate jeopardy to resident health or safety</p> <p>Residents Affected - Few</p>	<p>*Schedule posted on Dietary Wall, in C.N.A. and Nurse Communication book, and at Center Nurses station.</p> <p>*Resident #16 will be interviewed for preferences of beverages she prefer to consume.</p> <p>*Resident #16 Oral care will be provided 3x day by C.N.A. or Nurse.</p> <p>*Resident #16 Nurses will complete abdominal assessment for bowel sounds, and ensure abdomen is soft and non-tender 2x week to assist with signs and symptoms of constipation. Nurses will follow bowel protocol to ensure PRN medications are administered as ordered to assist with prevention of constipation and ensuring appropriate hydration status.</p> <p>*Resident #16 will be assessed by Dietitian on 10/04/2022.</p> <p>*Resident #16 Care Plan will be updated to reflect the above.</p> <p>2. Process/Steps to identify others having the potential to be impacted by the same deficient practice:</p> <p>*All other residents will be assessed for signs and symptoms of dehydration. If not already on Intake monitoring will be implemented for hydration improvement.</p> <p>*Immediate Education will be provided to C.N.A.'s, Dietary Aides, Cooks, and Nurses regarding importance of hydration, and fluid intake of all residents, signs, and symptoms of dehydration, and on amount of mL's in each beverage container. They will be provided a list of high-risk residents to ensure awareness of fluid consumption. C.N.A.s and nurses will be educated regarding importance of bowel documentation and follow up.</p> <p>*Nurses will have a task on the TAR for monitoring fluid consumption of high-risk residents prior to end of shift, to ensure minimum goal of fluids has been consumed.</p> <p>*Water pass was implemented at 10:30AM on 09/30/22.</p> <p>3. Measures put in to place/systematic changes to ensure the deficient practice does not reoccur</p> <p>*Nurse Manager will be assigned to observe, monitor, and ensure hydration schedules are being followed, and oral care is completed.</p> <p>*Will review fluid intake and BM documentation daily during morning clinical meeting.</p> <p>4. Plan to monitor performance to ensure solutions are sustained</p> <p>*Audits 12 resident's intake, oral care, and bowels daily x 4 weeks, 3x week x 4 weeks, weekly x 4 weeks, monthly x 4 months.</p> <p>*Water pass audit daily x4 weeks, 3x week x4 weeks, weekly x4 weeks, and monthly x4 months.</p> <p>IMMEDIATE JEOPARDY REMOVAL REVIEW</p> <p>(continued on next page)</p>

<p>F 0725</p> <p>Level of Harm - Actual harm</p> <p>Residents Affected - Some</p>	<p>Provide enough nursing staff every day to meet the needs of every resident; and have a licensed nurse in charge on each shift.</p> <p>**NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY** 41895</p> <p>Based on observation, interview, record review, policy review, and facility assessment review, the provider failed to ensure sufficient nursing staff were available to provide nursing services to meet residents' needs safely and in a manner that promoted each resident's rights and physical, mental, and psychosocial well-being for 79 residents. Findings include:</p> <p>1. Interview on 9/27/22 at 4:02 p.m. with a resident who did not want to be identified revealed:</p> <p>*She did not get a bath regularly.</p> <p>*She had false teeth, staff did not usually brush them, they just put them in a denture cup at night with a denture cleaning tablet, rinse them off in the morning and give them back to her.</p> <p>*Hates the weekends because staff is always short and feels there is no one there to care for her.</p> <p>*Sometimes in the evening when she is ready to get into bed, she has to wait up to two hours for assistance.</p> <p>-She states usually because it takes two staff to transfer her and there is not always two available to help.</p> <p>*She stated the staff will tell her just a minute but then never come back.</p> <p>*Has been put to bed at night soiled and not changed until the next morning.</p> <p>2. Interview on 9/27/22 at 4:53 p.m. with resident 45 revealed:</p> <p>*At times he has to go without a shower because there is not enough staff to assist him with the task.</p> <p>*He stated This [the provider] is a business and its about meeting the business standards, not taking care of people.</p> <p>*He did not think management listened to what the residents wanted or needed.</p> <p>45683</p> <p>3. Interview on 9/27/22 at 4:21 p.m. with resident 61 revealed she:</p> <p>*Had been sitting in her wheelchair in her room.</p> <p>*Had to wait a long time to use the bathroom.</p> <p>*Had some accidents because she has to wait for someone to transfer her.</p> <p>(continued on next page)</p>

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
<p>F 0725</p> <p>Level of Harm - Actual harm</p> <p>Residents Affected - Some</p>	<p>*She named several residents who have had negative experiences related to staffing concerns.</p> <p>6. Interview on 9/28/22 at 3:51 p.m. with CNAs S and V revealed:</p> <p>*CNA V had been working here for a few weeks, but CNA S started just on Monday, 9/26/22; both were already CNAs when they started.</p> <p>*CNA V reported she had received a little orientation when she started, but CNA S said she had received none.</p> <p>*They were assigned to work two halls together, blue [rooms 218-230, 20 residents as of 9/27/22] and red [209-217, 15 residents as of 9/27/22], but sometimes there was only one CNA for the blue wing.</p> <p>*No help was provided from other staff or nurses.</p> <p>*They did not know who leadership was.</p> <p>*There was no rounding between shifts with the off-going CNAs.</p> <p>*They try hard to do all personal cares.</p> <p>*The bath CNA doesn't do any baths outside of scheduled baths.</p> <p>*The CNAs have to pick up the water cups from each room and return with fresh water during the shift. CNA V reported there was no system for doing that when she first started so she started putting tape on the mugs so she could tell when fresh water was last delivered to each room.</p> <p>*Snack carts had to be done by CNAs if it was going to be done.</p> <p>*They had not had time yet to pass fresh water or snacks.</p> <p>Review of the employee files for CNAs S and V revealed:</p> <p>*CNA V started on 9/15/22 and there was a completed orientation checklist in her file.</p> <p>*CNA S started on 9/26/22 but there was not a completed orientation checklist in her file.</p> <p>Interview on 10/4/22 at 1:15 p.m. with human resource director (HRD) H revealed:</p> <p>*CNA S had not received orientation because she started working before she [HRD H] knew she was starting.</p> <p>*CNA V resigned effective immediately last week.</p> <p>7. Interview on 9/28/22 at 4:16 p.m. with CNA N, while standing at the nurses desk with no residents in the area, revealed:</p> <p>(continued on next page)</p>		

STATEMENT OF DEFICIENCIES AND PLAN OF CORRECTION	(X1) PROVIDER/SUPPLIER/CLIA IDENTIFICATION NUMBER: 435039	(X2) MULTIPLE CONSTRUCTION A. Building B. Wing	(X3) DATE SURVEY COMPLETED 10/04/2022

<p>F 0725</p> <p>Level of Harm - Actual harm</p> <p>Residents Affected - Some</p>	<p>*She had worked as a CNA here for a year.</p> <p>*The CNAs rotate wing assignments, and it took her two weeks to get to know every resident.</p> <p>*She was assigned as bath CNA that day, but they usually don't know who is assigned until they come on duty. She was the bath CNA maybe once a week out of three to four days.</p> <p>*The day shift CNAs will do walking rounds with the night CNAs if the night CNAs get here on time.</p> <p>*The CNAs do not get report from the nurses.</p> <p>*Regarding the bath schedule:</p> <p>-There is a schedule in the tub room.</p> <p>-The CNAs fill out a bath sheet to report the bath being done and any concerns observed during the skin check.</p> <p>-If scheduled bath is not done, a second CNA may see if the resident is willing to get a bath that day.</p> <p>-If the bath is not done, it may be done on another day if there is time and the bath CNA is aware of who was not done.</p> <p>-Sometimes, the nurse will write a note in the bath book.</p> <p>-We document the bath task in POC [point of care].</p> <p>*Radios don't help with communication between staff. There was either not enough or they are not charged.</p> <p>*The CNAs are not able to hear call lights from one end to the next.</p> <p>*Most Hoyer [total] lifts are on blue [wing], and the CNAs have to pool together to get two person transfers done.</p> <p>*Mealtimes can be a challenge for assisting all the residents.</p> <p>-Today during lunch, there wasn't enough. Several people, including leadership, left while the surveyors were gone for lunch.</p> <p>-Supper is hardest for having enough staff to assist with the mealtime because we are changing shifts at 6:00 [p.m.]</p> <p>At the end of the interview with CNA N on 9/28/22 at 4:20 p.m., LPN L, who was charting while seated at the nurses desk, spoke up and reported there was never enough staff. She said, Management has asked the CNAs several times what would help, and nothing has changed.</p> <p>(continued on next page)</p>

<p>F 0725</p> <p>Level of Harm - Actual harm</p> <p>Residents Affected - Some</p>	<p>8. Interview on 9/29/22 at 10:00 a.m. with 7 residents (9, 34, 36, 50, 52, 63, and 73) interviewed during the resident group meeting agreed:</p> <p>*They did not know who to go to when reporting a grievance. There had been so many changes in the last two months that they don't know what is happening.</p> <p>*The provider did not have sufficient staff to ensure care was provided in a timely manner:</p> <ul style="list-style-type: none"> -They reported they have had to wait too long for call lights to be answered. -Staff get pulled away when providing care with a resident, sometimes several times, to help with other situations. -At times, there will be two staff when using a mechanical lift but usually only one. -The CNAs stand at the desk or in the hallway talking and laughing with each other while call lights are going off. -Resident 34 had reported that [when CNAs were not responding to call lights] to the nurse, but no changes in behavior have been seen. -Resident 73 reported he sat on toilet today for an hour before a medication aide arrived and then she did not want to take the time to get the sit-to-stand lift. When he refused, she said, I'm the boss, we'll do it my way. (Refer to F600, finding 2.). -Resident 63 reported staff will not transfer me more than once a day so, when he wanted to attend morning and afternoon activities, he had to choose so he could get off his wheelchair during the day. -Residents 9, 34, and 63 all agreed they have had to help other residents get over a doorway threshold when stuck because there were no staff around to help. Then they get told they were not supposed to help other residents but do not get an explanation for why. -This should be our home, but it isn't. -They treat us as just a reason to get a paycheck. <p>*They got fresh ice water when they ask for it, but it is not routinely distributed.</p> <p>*They had not seen a snack cart and had never been offered snacks at bedtime.</p> <p>9. Review of the Facility Assessment revealed it was dated 5/24/21 and was based on an average daily census of 52 residents.</p> <p>*The facility census on the 9/27/22 Resident List Report had 79 residents total, with:.</p> <ul style="list-style-type: none"> -20 residents on Unit: 218-230 Blue (Center). <p>(continued on next page)</p>

<p>F 0725</p> <p>Level of Harm - Actual harm</p> <p>Residents Affected - Some</p>	<p>-For CMAs, seven days in August and four days in September.</p> <p>10. Interview on 10/04/22 at 1:25 p.m. with administrator (ADM) A and regional nurse consultant X regarding staffing revealed:</p> <p>*They have trialed several changes in staffing from eight hour shifts to twelve hours shifts. The change to twelve hours started the end of July.</p> <p>*Residents have been interviewed about staffing concerns.</p> <p>*Staff have been interviewed to see where they felt the high acuity cares were in the building.</p> <p>*ADM A acknowledged that she had not had a chance to update the Facility Assessment to reflect current acuities.</p> <p>*Staff need to use the walkies [radios] to communicate with each other.</p> <p>*Staff have not been willing to cross-over to help each other and will only work on their assigned hallway. We are trying to change the culture.</p> <p>*Bath assignments were trialed two ways:</p> <p>-Had the CNAs give the baths assigned on their hallways each day instead of having an assigned bath aid.</p> <p>-After conducting a bath Ad Hoc quality improvement audit and discovered that baths did not get done that way, we now assign a bath aide every day to give all the baths.</p> <p>*We are working to hold some nurses accountable to make correct decisions about reassigning staff.</p> <p>*We are making progress moving away from having contract staff; we were at 80% [percent] contract staff and now it is 50/50 [50% contract to 50% hired].</p> <p>11. Refer also to F600, F677, F685, F686, F689, F692, and F809 for findings that demonstrate the impact that insufficient staffing had on unmet resident needs.</p>

<p>F 0809</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>9. Interview on 10/3/22 at 4:00 p.m. with director of nursing B regarding snack passes revealed:</p> <p>*The dietary staff brought a snack tray around in the afternoon and if needed again in the evening.</p> <p>*She was not aware a snack tray was not being delivered to the East wing.</p> <p>10. Review of the provider's 4/30/18 Snacks policy revealed:</p> <p>*Daily snacks are provided in accordance with the prescribed diet and in accordance with State law and according to residents' preferences and requests. Individual and/or bulk snacks are available at the nurses' station or other designated locations for consumption by residents.</p> <p>*1. At least one (1) snack is offered at bedtime daily. Snacks should also be available throughout the day per residents' preferences and requests.</p> <p>*2. A minimum of two (2) of the following four food components is offered to all residents for the bedtime snack:</p> <p>-a. Fruit or fruit juice.</p> <p>-b. Whole grain or enriched variety crackers.</p> <p>-c. Variety of cookies.</p> <p>*3. Bedtime snacks for calorie level diabetic and strict renal diets should be outlined on the menu. Diabetics on insulin should also receive a labeled bedtime snack. These snacks should be covered and:</p> <p>-a. Labeled with resident's name, room number and date.</p> <p>-b. Delivered to each nursing unit by Dietary.</p> <p>-c. Offered to the residents by Nursing.</p> <p>-d. Delivered on ice or placed in the Nursing unit refrigerators immediately if desirable temperature is 41 F [41 degrees Fahrenheit] or less.</p> <p>*4. A snack menu should be given to Nursing so they will know what bulk snacks are appropriate for sodium, fat and calorie restricted diets, and modified consistency diets.</p> <p>*5. Acceptance or refusal of these snacks are noted on the Activities of Daily Living (ADLs) where possible.</p> <p>*6. Snacks preferred by residents are a good way to add calories and protein to their diet.</p>
