Level of Harm - Actual harm	**NOTE- TERMS IN BRACKETS I	HAVE BEEN EDITED TO PROTECT C	ONFIDENTIALITY** 37220
Residents Affected - Few	Based on medical record review, staff, resident and resident representative interview, review of facility incident reports, and policy and procedure review, the facility failed to ensure residents were free from abuse for 1 of 4 residents (#1) reviewed for resident-to-resident altercations. This failure resulted in harm to resident #1 who experienced verbal abuse a reasonable person would have found humiliating, intimidating, demeaning, and degrading. The findings were:		
	1. Review of the 5/18/22 quarterly MDS assessment showed resident #1 was admitted to the facility on [DATE], had a BIMS score of 10/15 (moderate cognitive impairment), and had diagnoses which included moderate intellectual disabilities, unspecified psychosis not due to a substance or known physiologic condition, depression, and post-traumatic stress disorder. Further review showed the resident independently used a wheelchair for locomotion, and did not exhibit any behaviors, wandering, or rejection of care.		
	Review of the 5/17/22 quarterly MDS assessment showed resident #2 was admitted to the facility on [DATE], had a BIMS score of 9/15 (moderate cognitive impairment), and had diagnoses which included non-Alzheimer's dementia and delusional disorders. Further reviewed showed the resident independently used a wheelchair for locomotion, exhibited verbal behaviors directed toward others 1 to 3 days of the 7-day look-back period, and exhibited behaviors not directed toward others every day of the 7-day look-back period. The following concerns were identified:  a. Review of resident #2's medical record from 2/23/22 to 8/24/22 showed the following nurse progress notes with the following concerns:  i. Review of a 2/23/22 note showed several residents were watching a movie when resident #2 attempted to pull resident #4 away from resident #3. When resident #4 refused to move, resident #2 used a closed fist and hit him/her in the left arm and shouted you do not need to be breathing all over [him/her] with your diseases.  ii. Review of a note dated 3/11/22 showed resident #2 called resident #1 a retard and a slut and said, [s/he] hasn't done anything with her life but color and that's a compliment.		
	iii. Review of a 3/19/22 note showed resident #2 wheeled up behind resident #1 who was playing with a slot machine and said we have to bow down to the queen and other things that staff could not hear.

In addition dietary aide #2 had witnessed resident #2 hit resident #1 with a plastic kids shovel, call him/her multiple rude names, stare him/her down, try to isolate resident #1 by placing his/her wheelchair in front of resident #1's room and also block the double doors, which led out of the facility, so resident #1 could not leave.		
	k. Telephone interview with the social worker on 9/2/22 at 8:20 AM revealed resident #2 was very protective of resident #3 which caused obsessive behavior when resident #1 was near him/her. She stated resident #1 was the main focus of behaviors exhibited by resident #2, however other residents were also affected at times. The social worker stated all we can really do is supervise because of staffing and we talk to resident #2 when s/he was being inappropriate.		
	2. Interview with the DON on 8/25/22 at 1:02 PM revealed resident #2 had an obsession with resident #3, and was jealous and showed behaviors when other residents were near him/her. The DON stated she did not think resident #2 intentionally targeted resident #1, however his/her behaviors were more directed at resident #1 than any other resident and occurred approximately 2 times per week. The DON stated the aggressive behaviors were better during the day when there was more staff. Further, the DON stated this was no way to live or have to live and had approached resident #1's family about transferring resident #1 to a different facility.		
	3. Review of the policy and procedure titled Abuse and Neglect-Clinical Protocol & Guidelines last approve on 2/2022 showed .Treatment/Management 1. The facility management and staff will institute measures to address the needs of residents and minimize the possibility of abuse and neglect. 2.
